## Washington Roundup

Congress reconvenes today after a 38-day recess with indications that it will bow to a widespread demand for completion of demobilization legislation in the face of a possible German collapse. Committees charged with whipping the legislation into shape are expected to get to work immediately. The prospect of a continued congressional recess until Labor Day also faded. Both the Senate and House are expected to take three-day recesses, thus being on call in case of urgent legislation.

A House military affairs subcommittee charged today that taxpayers have been drained of millions of dollars by a system of "labor rent" in which war contractors have paid labor as much as \$12 an hour. Government agencies, including the war labor board, have promised aid in checking the practices.

Washington officials expressed the belief today that the entry of Turkey into the war might do more harm than good. This surprising view, however, was reinforced by the belief that a complete break of commercial and diplomatic relations between Turkey and Germany is highly desirable. Fear was expressed that a Turkish declaration of war would mean armed conflict with Bulgaria rather than Germany and thus would do little to aid the Allied cause.

Republican members of the Senate defense investigating committee joined their Democratic colleagues today in urging that the chairmen, Sen. Truman, remain at his post. Truman has announced that he will resign. The Missouriian is Democratic vice presidential nominee. Republicans skipped party politics to hail Truman's able leadership of the committee.

The Soviet government favors hanging Hitler by "a halter around his neck." Ilya Ehrenburg, official Soviet author, said he was glad the recent bombing assassination attempt was unsuccessful so Hitler could be hung.

## Red Forces Pound At Warsaw Gates U. S. Troops Land Nearer Philippines

### Red Troops Are Forging Arc Of Steel About City

Advance. Spearheads Of Russian Force But Ten Miles From Outskirts

### SOVIETS ADVANCE ON WIDE FRONT

By NATALIA RENE  
(U. S. Staff Correspondent)

MOSCOW, Aug. 1.—Powerful Russian armies pounded at the gates of Warsaw today as victorious Red troops forged an arc of steel about the city from the north, south and east.

Advance spearheads of the hard-driving Soviet forces advancing on the Polish capital were reported in the latest communique to be but 10 miles from the outskirts in the nearest thrust.

### Towns Captured

Among the outlying towns captured by the First White Russian army commanded by Marshal Konstantin K. Rokossovsky were the strongholds of Minsk-Masovietki, the village of Orzovsk, 15 miles to the southeast, Radzynin, 12 miles to the northeast, and Wolowin, 10 miles northeast of the city.

Earlier Premier Marshal Joseph Stalin revealed that other Russian forces had stormed and taken the strongholds of Minsk-Masovietki and Siedlece, both astride the principal rail link running west into Warsaw.

To the north in the area of East Prussia, the Third White Russian army under Gen. Ivan D. Chervakov, pounded across a 145-mile front for gains of 30 miles in the (Continued on Page Two)

## Demobilization Legislation To Be Speeded Up

Congress Resumes Facing Many Vital Problems Of Postwar Period

By WILLIAM S. NEAL  
(U. S. Staff Correspondent)

WASHINGTON, Aug. 1.—Congress reconvenes today after a 38-day recess with indications that it will bow to a widespread demand for completion of demobilization legislation because of possibility of collapse of Germany.

Committees in both senate and house promised to deft mid-summer heat and seek to whip into shape bills dealing with unemployment compensation for war workers, disposal of surplus property and streamlining of demobilization machinery.

The two branches of congress may be forced into a period of three-day recess while committees are working. Prospect faded, however, continuation of the recess which spanned the two national political conventions.

### Legislation Faced

Action toward reconversion legislation including:  
1. Republican steering committee called into session to make formal demand on Democratic leadership to rush legislation.  
2. Senate Majority Leader Alben Barkley of Kentucky said that congress will remain in session.  
3. Telegrams were sent urging (Continued on Page Two)

## Yugoslav Partisans Take 13 Villages

LONDON, Aug. 1.—(INS)—Marshal Tito reported today that his Partisan forces had captured 13 towns and villages in various sections of Yugoslavia and had severed German communications between Albania and the upper Yugoslav valley.

As broadcast by the Free Yugoslav radio and heard in London, Tito's communique reported seizure of the town of Debarcebar in southern Yugoslavia, Plav and Rijevica in Montenegro, and Vrljika in northeast of Split, and Samac and "three other Axis strongpoints" between Belgrade and Zagreb.

Tito said units of his Partisan forces had defeated parts of the German Prince Eugen division defending the Aenica-Zepce line.

## Notable Gains On Two Allied War Fronts Are Cited

By CAPTAIN JOHN H. CRAIG  
(Written Especially For International News Service)

News of the war today brings sensationally good tidings from two fronts. In the hard-fought battle of Normandy, Lieut. Gen. Omar N. Bradley's second American Army has driven an armored spearhead to Avranches, almost clear of the bottle-neck of the Cherbourg peninsula. Ten miles more progress will carry U. S. forces entirely through the last of the naturally strong line of positions that has penned them in for more than a month.

They will then be in a position either to drive to the east in an endeavor to encircle and destroy the entire German armies that they have by-passed, or to strike to the west for possession of the peninsula of Brittany, with its great ports of Brest and St. Nazaire.

## Dewey Enroute To Middle West Farm Belt Area

Enthusiased Over Greeting Extended By Huge Crowds In Pittsburgh

By LEO W. O'BRIEN  
(U. S. Staff Correspondent)

EN ROUTE WITH DEWEY, Aug. 1.—Gov. Thomas E. Dewey entered the Middle West farm belt today, carrying with him the foundations of a Republican post-war reconversion program and assurances from Pennsylvania and West Virginia leaders that he has a good chance of carrying those states in November.

Mr. Dewey's unique non-speech-making trip, which took him to Pittsburgh yesterday and brings him to Springfield, Ill., today, is attracting huge crowds anxious to see the Republican presidential nominee.

Huge Crowd  
Party leaders estimated that between 50,000 and 60,000 persons turned out in Democratic-controlled Pittsburgh to greet Gov. Dewey.

They believe he will return later for a major campaign speech in Pittsburgh, where Republicans are hopeful of a shift in labor sentiment which will cut deeply enough into Allegheny County's normal Democratic majority to give Gov. Dewey the state.

That shift may depend upon whether the United Mine Workers of America, representatives of which met with the Republican nominee last night, decide to back his candidacy.

Although John O'Leary, executive first vice-president of the John L. Lewis-controlled union, said no commitments were made, he left the door open by announcing that the (Continued on Page Two)

## Two Enter Police Station With Guns, Release Two Pals

INGLEWOOD, Cal., Aug. 1.—(INS)—Armed with a sawed-off shotgun, two youths entered the Inglewood police station early today, locked Desk Sgt. Fred Spurgeon in a cell and released two inmates, police reported.

Fired by the youthful pair were Robert C. Ham, 18, of Oklahoma, held on suspicion of burglary and safe-cracking, and his cell-mate, Jack Carr, 21, held on suspicion of grand auto theft.

A radio car patrolman who was unable to contact the station investigated and discovered the desk sergeant locked up and the prisoners gone.

## New Leap Brings U.S. Troops Nearer To Philippines

American Forces Seize Two Islands Only 600 Miles From Philippines

### JAPS FORCE TAKEN UNAWARES IN MOVE

By FRANK ROBERTSON  
(U. S. Staff Correspondent)

GEN. DOUGLAS MACARTHUR'S HQ., NEW GUINEA, Aug. 1.—American troops, spearheading Gen. Douglas MacArthur's drive to return to the Philippines, shortened the distance separating them from their goal to 600 miles today through a new amphibious assault in which the islands of Amsterdam and Middleburg and the Sansapor coast of the adjacent mainland at the western tip of Dutch New Guinea were occupied.

The new leaping landing operation, supported by Allied warships and aircraft, neutralized the Japanese base of Manokwari, 150 miles to the east, a communique from headquarters of Gen. MacArthur revealed.

The operation outflanked approximately 15,000 Nipponese troops of the 25th Jap division commanded by Lieut. Gen. Shunkichi Ikeda.

### Caught Japs Unaware

International News Service war correspondent George Lait, who landed with the United Sixth Army forces on the Omari peninsula on the Sansapor coast, said the landing caught the Japs completely unaware and not a shot was fired.

Lait said there was evidence that a small number of Japs had evacuated the area as the formidable Allied convoy appeared on the scene. One dead Jap and another dying from disease were found in a native hut on the fringe of the jungle near the shore.

Seizure of the two islands and the Sansapor coast, carried out with the aid of American and Australian cruisers and destroyers, completed Allied envelopment of the New Guinea mainland and established American bases only 260 miles off Halmahera Island in the Dutch East Indies and 600 miles from the Philippines.

Halmahera is Japan's last major base between Dutch New Guinea and the Philippines.

## Estimate 3,000 Population Gain In Lawrence Co.

If the Pennsylvania Planning Board estimates are correct, Lawrence county is now a fifth class county insofar as population is concerned. The board estimates that Lawrence county has increased in population 3368 since the 1940 census. The 1940 census for the county showed 56,887 people here. Adding the increase this would make the population 100,255, just inside the fifth class county classification.

The estimate of the board is not an official census and until 1950, when the decennial census is taken, Lawrence county will remain a sixth class county despite any population increase.

## Stilwell Named To Be General

(BULLETIN)

WASHINGTON, Aug. 1.—(INS)—President Roosevelt today nominated Lt. Gen. Joseph W. Stilwell for promotion to the rank of full general. Stilwell is commanding officer in the China-Burma sector.

Promotion of Stilwell, a hard-bitten veteran of Asiatic fighting, indicates well laid plans for future offensive action in the Asia war theater.

The general, fondly known as "Uncle Joe" to his troops, gained fame during bitter retreat through Burma jungles when hard pressed by the swift advancing Japanese during the early days of the war.

## Over 6,000 Japs Already Dead In Battle Of Guam

PEARL HARBOR, Aug. 1.—With a solid line of American steel stretching from the Oroquieta peninsula to Port Pago on the east coast of Guam, American Marines and infantrymen today were cleaning up Jap pockets of resistance among the hills and caves in the southern half of the island.

Heavily covered by the supporting fire of warships lying offshore, artillery and carrier-based planes, American forces surged completely across the waist of the island Sunday, forcing a wedge between remnants of enemy forces fighting in the southern and northern halves of the former American possession.

Over 6,200 Jap Dead  
A communique from Admiral Chester W. Nimitz revealed that the number of known Jap dead in the Guam campaign to date total 6,205, or 1,662 more than reported in yesterday's announcement from Pacific fleet headquarters.

## German Army Retreats Before Allies In France

American Troops Drive At Breakneck Speed Towards Ancient Brittany

### NOW IN VIEW OF ST. MICHEL BAY

By J. C. OESTREICHER  
(U. S. Staff Correspondent)

For the first time in more than a quarter of a century, the people of France revealed today in a magnificent sight—that of a German army in full retreat.

American troops of Lieut. Gen. Omar Nelson Bradley's First Army, pounding at breakneck speed toward the ancient provinces of Brittany, threw the Nazis bodily out of Avranches, captured hundreds of prisoners, crossed the Selune river and opened heavy artillery fire upon enemy strong points trying desperately to prevent a general fold-up of the whole German wing in western France.

Streaming down the perpendicular road from Avranches, armored spearheads of the United States army came within view of the picturesque Bay of St. Michel and to all intents and purposes they have debouched out of the wooded fastnesses of Normandy into the sandy Breton plains.

But in actual point of fact, there are still some miles to go before it can be fairly said that Brittany has been entered.

Crossing of the Selune river marked a determined attempt by the Allies to unhinge the entire German line guarding the base of the Brittany peninsula, whose liberation will immobilize the great trans-Atlantic Port of Brest and the naval Port of St. Nazaire, from whose concrete "pens" vast fleets of German U-boats scoured the seas in the days of Adolf Hitler's power.

Bereft of the natural defenses and obstacles which paid them such great dividends in Normandy, and stripped of the material superiority and spiritual arrogance that aided them in other war days, the Germans fled from overwhelming American firepower and armored strength and it was a retreat in the fullest sense of the word.

## Final Report On Bond Drive

County Exceeds Quota For Fifth Consecutive War Loan Campaign

With the final reports in on the fifth war loan campaign in Lawrence county, the totals for the county are \$7,403,833, over the quota of \$7,010,000 by \$393,833. Once again Lawrence county exceeded the quota set for it in the war loan campaign, giving the county a 100 per cent record for the drive.

The total given today includes all types of bonds "E," "F" and "G," tax notes, corporation bond sales, everything. The sale of "E" bonds in the county was not up to quota, but the corporate sales were above quota, giving the county an over the quota total in all.

## Charge Taxpayers Pay Huge Cost In 'Labor Renting'

'Drained Of Millions' Is Report Of House Military Affairs Subcommittee

By EARLE MARCKES  
U.S. Staff Correspondent

WASHINGTON, Aug. 1.—A House military affairs subcommittee today charged that taxpayers have been drained of millions of dollars by a system of "labor renting" in which war contractors have paid labor as much as \$12 an hour.

The subcommittee reported that government agencies, including the National War Labor Board, have promised rigid action to halt the practice, which was termed a "parasitical device existing at the expense of the taxpayers."

The method used, according to the subcommittee headed by Rep. Carl T. Darnall (D-N.C.), is for an "engineering firm" to be formed, coral labor and offer it to big government contractors at an enormous profit.

The subcommittee assailed today of the government in checking the practice.

Apparently it was not until late 1943 and early 1944 that any attempt on the part of responsible government agencies was made to put a stop to the practice, and no definite action was taken to do so until the House committee began its investigations in industrial centers, the report said.

The committee admitted that the firms claim also to furnish engineering services.

## GERMAN FORCES SEEK TO DEFEND CITY OF FLORENCE

(Continued From Page One)

Immediate approaches to Florence, New Zealand troops are in the thick of the battle against the Nazis who are employing big tiger tanks in their counter-blows.

Only patrol sorties and artillery duels were reported from the rest of the Eighth army front and on the Fifth army front to the west.

Planes of the Mediterranean air force flew about 1,700 sorties yesterday, blasting German communications, supply lines and other objectives in northern Italy and the battle area.

Attack Oil Fields.

In the flight of heavy bombers which attacked the Ploesti oil fields and other targets in Romania, about 85 Nazi interceptors were engaged over the Ploesti oil depot at Bucarest. The Germans lost 30 craft which were shot down. Smoke rose to heights of 15,000 feet after explosions wrecked the oil installations.

In the entire day's activity, including sweeps over Yugoslavia, 32 German planes were destroyed. Ten Allied craft were listed as missing.

forward to occupy the Sannio coastal area of New Guinea and the islands of Amsterdam and Middelburg nearby.

By this move, he completed the isolation of the entire New Guinea sub-continent and added another 15,000 Japanese soldiers to the more than 200,000 that are already cut off from supplies and support to either helplessly on the line. Even more important, he advanced his lines to within less than 200 miles of strategic Halmahera island, key to the Philippines and victory over Japan.

Gen. MacArthur's surprise move was carried out with the tactical skill and success the public has come to take for granted in the operations of this brilliant officer. Once again he outwitted the Japanese high command by selecting objectives that they least expected. American forces met with light losses and quick success.

Little Resistance.

According to front dispatches, the first troops went ashore at dawn on Sunday, met little resistance, and by noon most of the desired objectives had been attained.

The landing, which was the 17th such operation undertaken successfully by MacArthur's forces since June, 1942, puts the final cork in the bottle in which huge Japanese forces are imprisoned on New Britain, New Ireland and the Solomons.

The Nipponese on their home island will witness the spectacle, unprecedented in history, of the equivalent of 15 divisions of troops engaged in the spider-web of modern air and sea war, perishing without being able to inflict a single casualty on their foes or strike a blow in their own defense.

Nearer To Philippines.

Even more important, the new advance puts American forces within 600 miles of Samar, southernmost big island of the Philippines. From their foothold Sannio, which will probably be turned quickly into a major air-sea land base, a ladder of islands of which the first is Halmahera, extends with close-spaced run to the Philippine group.

As pointed out in this column last February, this is one of the two lines of advance most favored by American strategists to possession of the Philippines, key to American victory over Japan.

The other is the route across the north-central Pacific, via Saipan and Guam, where marines and soldiers of Admiral Chester Nimitz forces are now fighting.

United States forces advancing by both routes are now close to Japan's main and final line of defense, bringing the day nearer when the miko's main fleet must rally forth for a Jutland-battle that will write Japanese doom.

union will lay down its policy Sept. 11 at its international convention in Cincinnati.

That the union, or some of its leaders, may support the Dewey-Bricker ticket was hinted recently by an editorial in an official publication.

John L. Lewis did not attend the Pittsburgh conference with Gov. Dewey, and Mr. O'Leary said he had not been informed of the meeting.

Bricker To Join Dewey

The train bearing the Republican nominee to Springfield passed through Columbus, Ohio, at 1:30 a. m. today, but Gov. John W. Bricker, GOP vice-presidential candidate, did not board it.

Gov. Bricker will join Dewey tomorrow at St. Louis, where the Republican governors of 24 other states will assist them in drafting a definition of federal-state responsibilities and obligations. The agenda for the St. Louis conference, covering 15 subjects, was prepared by Gov. Dewey and Bricker at Albany last week.

Gov. Dewey was well pleased with the "optimism and confidence" displayed at his Pittsburgh conference.

He selected that industrial center to start what promises to be a continuing effort to convince the voters that:

To Convince Voters

1.—The Roosevelt administration has done nothing about post-war reconstruction, and the jobs involved and that the Republicans are better qualified to prepare and carry out a program which will enable the nation to move from a war production to a peace-time basis without widespread unemployment and economic dislocation.

2.—The end of the war is close enough to warrant the assumption that the next president will serve most of his term as a peace-time executive rather than a war-time "commander-in-chief."

3.—The Democrats destroyed their own "New Deal" program by their own "letting the horse" out of the stable.

During conferences at Springfield today with business, labor and agricultural leaders, Gov. Dewey intends to hammer away at the same theme as he did at Pittsburgh, where he faced with similar groups—that the Republican party is ready to offer tangible plans for a prosperous post-war future for workers, employers and farmers alike.

Philadelphia Transportation Company, remained unaffected at eight o'clock.

At the latter hour, the city hall district, usually alive with office workers, was practically deserted.

"No Strike"

Labor leaders emphasized that there was "no strike."

According to police, the sudden wave of "sickness" among the traction company's employees was precipitated by its initiation of a training program for Negro trolley operators.

Eight Negroes—the first group of PTC motorman trainees of their race—began taking instructions yesterday. They are being given a chance to run trolleys in accordance with a new employment policy of the company, affording Negroes equal opportunities with white workers.

Simultaneously, Frank L. McNamee, regional head of the war manpower commission, assigned Postel Vaughan, Negro of the USCS office, to recruit Negro applicants for PTC jobs in the Philadelphia area.

Fearing possible race trouble, police officials rushed details of patrolmen and detectives to all trolley barns and terminals.

Thousands Affected

Meanwhile, tens of thousands of war workers, most of whom had to walk many weary miles, reported late for work in the Philadelphia-Camden (N. J.) area, second largest war production center in the United States.

Had been placed in group one as a critical labor market and 35 key industry groups were ordered on a 48 hour week.

To aid its 30,000 employees get to work, the Philadelphia navy yard dispatched huge naval buses to the terminal of the Broad Street subway. From there the buses shuttled workers two miles to the navy yard.

direct the heaviest fire from their guns into enemy concentrations from both sides of the island. This murderous fire coupled with that from artillery and planes, prevents any semblance of organized resistance by the Japs and enables our patrols to dig out the hidden enemy with a minimum of loss.

While the fighting on Guam has temporarily resolved into patrol activity, Marines on Tinian were wading the Japs tighter against the sea on the southern tip of the island.

The doomed garrison on that island has been pinned into a three-mile square pocket near Lalo Point, and all resistance is expected to cease at any time.

IN MEMORIAM

In loving memory of Freda Weatherby Young, who passed away 1 year ago today, August 1, 1943. Sadly missed by family and friends.

"Dear God, who doeth all things Take our dear Freda to thy breast And hold her close through Death's long night That she may have eternal rest And when the Judgment Day shall come And all the dead in Christ shall rise God grant that we who loved her best Shall go to meet her in the skies."

Shakespeare wrote his plays exclusively for the Blackfriars and Globe Theaters in London.

## PA NEWC Observes

there are going to be miles and miles of new ones needed to keep the city up to snuff by the time the war is over.

Births have decreased considerably during the month of July, at the New Castle hospital with 41 infants being born, compared to 64 births during the month of June.

Twenty-one of the infants born in July were female and 20 were male. Female births at the hospital have been outnumbering the male births for several months now.

Owen Fox, city naturalist, will have to look to his laurels. Pa Newc has a report from a North Hill woman that she witnessed a battle between a squirrel and a robin in the back yard of her property recently.

Pa Newc hears a report that elderberry picking is already under way on some farms in the county. The crop is said to be large this summer.

"Tour-Rest" Home is the name applied to one tourist home in western Pennsylvania, Pa Newc discovers.

Oats harvesting is certainly a feast time for the birds. Pa Newc discovered huge flocks of small birds having a banquet in one field. The count which had recently been cut and shocked.

Rural avenue work done by the Men's Garden club several years ago is now reflected in one of the most appealing routes in the city.

Although this is off season for roses to bloom, in the Community Rose Garden across from the Memorial hospital there were a number of beautiful roses out this morning.

A letter has been received by Pa Newc from four sailors stationed at Little Creek, Va. They claim the mail situation is rather discouraging for them, so they will appreciate hearing from New Castle people.

According to officials of the U. S. mint the dime-like steel pennies will remain in circulation until they wear out, or disappear as they are not to be withdrawn from circulation. Production was halted early this year.

Babies averaged two a day during July at Jameson Memorial hospital. Sixty-two were born during the month, 36 girls and 26 boys.

Pa Newc saw a auto carrying an old 1942 license plate on the front of the car being driven through the public square at noon today.

RED TROOPS ARE FORGING ARC OF STEEL ABOUT CITY

(Continued From Page One)

third day of this offensive which crashed through German defense on the River Neumen.

Near East Prussia Proper

The town of Pilsiskal, 20 miles from East Prussia proper, was overwhelmed by three advancing Red army forces. Pilsiskal is an important rail town on the Kaunas-to-Koenigsberg railroad.

Kaunas, capital of Lithuania, was earlier admitted lost by the Nazis, but the Russians said it merely that street fighting was continuing to eliminate the Germans street by street.

In a dash for the Gulf of Latvia an estimated 300,000 Germans of the 16th and 18th armies garrisoning northern Latvia and Estonia were further imperilled by the Russian armies. The capture of Mitava, 22 miles south of Riga, watched the last railway escape route for these German troops in the north.

New Drive In South

To the south, Stalin announced a new drive in the seemingly endless string of Russian offensives. The Third White Russian front erupted some 32 miles below Kaunas as Russian forces launched a new attack which claimed Mariopol as its first prize. Besieged German garrisons in the Baltic states thus were subjected to pressure from the north and east as a Russian strike attempted to cut them off in the south.

On the first Baltic front Soviet tanks spearheaded massed infantry "utterly smashed" German defenses and counterattacks. In this sector, south of Riga, the important and bitterly contested rail and road junction of Jelgava was taken. Jelgava was formerly reported to have changed hands several times in confused fighting.

The day was a stupendous one merely in the number of towns and villages taken—more than 2,140.

OVER 6,000 NAZI PRISONERS TAKEN

LONDON, Aug. 1.—(INS)—More than 6,000 prisoners were taken on the American sector of the battle-front in France yesterday, according to a Reuter Dispatch today from Normandy.

## Clear-Uncontrolled Communications To Be Confab Subject

WASHINGTON, Aug. 1.—(INS)—

Representatives of allied nations are today planning immediate conferences to straighten out the perplexing problem of international communications which have been interrupted by global war.

Clear and uncontrolled communication, essential to a free press and a free radio, will be the subject of a conference of Latin-American nations at Rio de Janeiro in the near future, to be followed by a similar parley between the United States and Great Britain, the state department disclosed.

Out of these meetings will come the agenda to be presented by the peace conference where dual arrangements on the postwar communication system, rates and air waves will be determined. The main objectives for an untrammelled system of world-wide communications are world-wide bans on censoring, transmission facilities open to all, equality of rates and newspaper access to all possible sources of news.

Today's communique also disclosed another raid against the Japanese oil center of Boela on the Island of Ceram, 150 miles south of the latest American landings. Many fires were left blazing in fuel storage areas.

#### PIZZITOLA-GAYDOS CHURCH CEREMONY

Using the double ring ceremony, Miss Lucille Gloria Pizzitola, daughter of Mr. and Mrs. Frank Pizzitola of 417 Lyndal street, was married to Albert E. Gaydos, son of Mr. and Mrs. Steve Gaydos of 418 Lyndal street, Saturday morning at 9 o'clock in St. Vitus church with Rev. Fr. Albert M. Inteso officiating.

Given in marriage by her father, the bride was dressed in full-skirted white marquisette with a long veil of lace and tulle and a crown of seed pearls. She carried white roses and orchids and wore a gold cross given to her by her mother.

As bridesmaid, Marianne Pizzitola, sister of the bride, wore pink bengaline and pink tulle and carried Johanna Hill roses. Joseph Mihos was best man.

Following the ceremony, a wedding breakfast was served at the home of the bride's parents, and a reception was held later. The couple have left on a honeymoon to Cleveland, O., and Detroit, Mich. For traveling, the bride wore a moss green suit and a shoulder corsage of orchids. After August 6 they will be at home to their friends at 418 Lyndal street.

Mrs. Gaydos is a New Castle high school graduate of January, 1940 and has been employed at the Shemango Pottery for the past three years. The groom graduated from New Castle high in January, 1935, and is working at the National Radiator company.

Out-of-town guests were present from Ellwood City, Pittsburgh, Warren, O.; Akron, Cleveland and New York City.

#### LaVERNE LAWSON WEDS GEORGIA MAN

In the same room in which President Woodrow Wilson was married in 1885, Miss Laverne Lawson, daughter of Mr. and Mrs. Howard W. Lawson of 212 Crescent avenue, and Francis G. Harden, son of Mr. and Mrs. John H. Harden of Savannah, Georgia, were married on July 11 at Savannah, Georgia. Dr. Samuel M. Glasgow performed the double-ring ceremony.

Given in marriage by her father, the bride wore a white crepe dress with a draped skirt and a Dutch cap of white lace and carried a white testament and white orchids. Mrs. Julian Thomas, sister of the bride, was matron of honor, wearing a dusty rose crepe dress and a half-hat made of blue flowers. Her flowers were talisman roses. Julian Thomas III served as best man.

Mrs. Harden attended school in New Castle, and was employed by the Strouss-Hirschberg Company. Mr. Harden is a graduate of Georgia Military College, and until recently, was in the army. He is now a staff announcer for the National Broadcasting Company station in Savannah. The couple plan to make their home in Georgia.

#### Tigers Auxiliary

## POSTWAR PLANS ARE CONSIDERED

State Municipalities Project Half  
Billion Dollars Worth Of  
After War Programs

WILLIAMSPORT, Pa., Aug. 1.—(INS)—Postwar plans, totaling more than half a billion dollars have been approved by Pennsylvania municipalities. Francis A. Pitkin, director of the state planning board, reported today.

He warned, however, that only three of the state's 67 counties had established planning commissions to supervise local improvement programs despite "moral responsibilities."

Speaking at the annual meeting of the State Association of County Commissioners at Williamsport, Pitkin explained that county postwar planning falls into three categories: planning for the economic future, physical development and protection of the property values.

"There is nothing in the county code which specifically gives you the responsibility of aiding in the employment opportunities of your citizens or for strengthening of the economic basis of your area," he said.

Both the state planning board and the newly-established postwar planning commission feel that it is very important that a statewide summary of public works be made so that we can approach its possibilities as a means of absorbing temporary employment after the war," Pitkin stated.

The only means by which the protection of property values can be attained is through the development, enactment and wise administration of zoning ordinances," he concluded.

## Lt. J. A. Bickett Flies 50 Missions

Second Lieut. James A. Bickett, navigator of a B-24 Liberator bomber, has flown his 50th mission against the enemy, according to an announcement from an AAF station in Italy.

Lieut. Bickett went overseas last December and since then has participated in his bomber over aircraft factories, oil refineries and other strategic targets in Germany, France, Austria, Romania and Italy. He has nudged death more than once, escaping each time, and winning the air medal for his achievements.

His wife, Mrs. Rosemary Bickett, lives at 218 E. Winter avenue.

## Health Talks

By DR. W. A. WOMER  
City Health Superintendent

### THE VOICE

The tone or quality of the voice sometimes gives a good idea of the condition of the throat or voice box.

If the voice gradually becomes husky or different from the usual sound something may be wrong.

There may be an inflammation of a growth or perhaps tuberculosis. Whenever the voice gets rough or there is an irritating cough, medical examination is needed. If an inspection is made early, later trouble may be prevented.

It is perhaps a good thing to be careful of the voice. Loud talking or shouting should be avoided.

Teachers of mental hygiene tell us that the voice should be quiet and well modulated. High pitched loud voices are hard on the nerves of both the speaker and the hearer.

"In peace there's nothing so becomes a man as modest stillness and humility."

## Planes, Not Autos, In Postwar Garages

STATE COLLEGE, Pa., Aug. 1.—(INS)—Pennsylvania motorists who haven't had both feet off the ground since they skipped rope will be zipping through the air in helicopters within 10 years, Dr. David J. Perry of Pennsylvania State college's aeronautical engineering department, predicted today.

"The automobile industry will boom for five years following the war," Perry said, "while engineers convert the present war-tuned aircraft industry to production of planes for private use."

## OCD NOTES

Frank T. Sargent, co-ordinator for the Office of Civilian Defense, city of New Castle, today stated that "some time ago a notice was sent to senior wardens stating that a change was being made in the manner of sending out signals to the control centers for an alert. This system is now in operation. It would not be surprising were a drill ordered in the near future. Because of this I ask all OCD personnel to be on the alert, carry credentials and in order to set an example for non-members of the OCD not leave lights burning when you leave home or your business place."

## Predict Turkey Supply For State

HARRISBURG, Aug. 1.—(INS)—

The state agricultural department predicted today that more home grown turkeys will be available to Pennsylvanians for Thanksgiving because government "set-aside" orders for the armed forces does not apply to this state as in past years.

Last year, the department pointed out, Pennsylvania farmers were not permitted to sell turkeys until military needs were filled, but there are no such restrictions this year.

While the armed forces needs were not disclosed, the department forecast that they were likely to exceed the 35 million pounds used in 1943.

A report of hatchery production from the federal-state crop reporting service disclosed farmers and poultrymen were raising fewer chickens this year while demands for recently hatched turkeys were unusually heavy.

"Hatchery orders for ducklings and baby guineas during June in some instances exceeded the supply," the department reported, "and due to early closing of most hatcheries this year, many later orders by farmers for baby chicks could not be filled."

## What People Say

(International News Service)

CHICAGO—John Tincin, Chicago manufacturer, paying his Navy pilot nephew, Lieut. Alexander Vrachli, 25, of East Chicago, Ill., a reward of \$1,900 for shooting down Japanese planes at \$100 a plane. "I'm glad he came home now—because if he stayed there any longer I'd have to buy the Japanese air force!"

NEW YORK—G.O.P. Presidential Candidate Gov. Thomas E. Dewey of New York, entraining for a 2,350-mile swing through Pennsylvania, Illinois and Missouri and a conference of Republican governors at St. Louis. "I am very hopeful that the conference of governors will produce a real example of solving the critical problems of government by discussion instead of leaving them unsolved, as has been the case for 12 years."

WASHINGTON—Sen. John H. Bankhead (D., Ala.), asserting prospects of an early peace, plus inability of the OPA and Mills to agree on mill prices, has created an "unjustified depression in cotton prices." "I advise farmers to withhold their cotton from sale until the price at the farm is at least equal to the parity price."

Ditchfield To Work With Young People at Conneautville

Rev. J. C. Murphy, pastor of the Maitland Memorial Primitive Methodist church, will be the Young People's worker in charge at Conneautville camp meeting August 4 to 13.

Mrs. Leslie F. Ditchfield, of this city, will be in charge of the children's hour at 1:30 each afternoon during the camp meeting.

This will be the twelfth consecutive year that the camp association will entertain 100 young people as guests if the Conneautville camp.

## THE PARENT PROBLEM

(Continued From Page Four)

envelope sent to 235 East 45th Street, New York City.

It will work. It worked with our children and scores of mothers who have accepted my advice on this matter have assured me that it worked for them. Of course, the child should not be expected to sleep longer on Sunday morning or holidays. He waking hour must be the same the year round.

Once the youngster has his own low cot, say at four or five, he can properly be allowed to go to the bathroom if he feels the need, and return to bed alone. Some younger children would not awaken too early but for bladder pressure. To take them up when you retire or later in the night might solve this problem. Sometimes a shift in the hour of morning feeding of the tot of fifteen months or younger will prevent too early waking.

### Quiet Period

Even the child of early school age may need special discipline in order to learn to sleep as late as he should. As adolescence dawns the problem may be to get the child up early enough. All too many at this age go to bed too late.

Stick to the regular afternoon nap for the pre-school child. If possible, get the older children, during summer vacation, to nap in the afternoon. At least they should be required to be in a state of quiet for a few hours daily when no playmates will be in and your children will be indoors or on the porch or lawn. Do this for your own sake as well as for the children's.

### Has Much Influence

The governor of a state, with the power of the patronage he controls, wields far more influence than the Republican organization. The ratio of this power—things tend to get down to statistics in Dewey headquarters—is figured at 20 to 1. The intention of the St. Louis meeting is to enlist the 26 in an all-out drive.

Dewey's people do not deceive themselves. They know very well that Governor Warren of California has serious doubts about his state. But they put him down as an exception.

Then, second, they believe that the governors as outstanding leaders in their respective states will make a striking contrast to the "tired new dealers." In each state the public is to be impressed by the fact that the outstanding leader is a Dewey man.

This, as I say, is all being carefully planned out. The young men from Albany are out to show the country a new kind of politics.

## BRITISH SERVICE MEN ATTRACTIVE

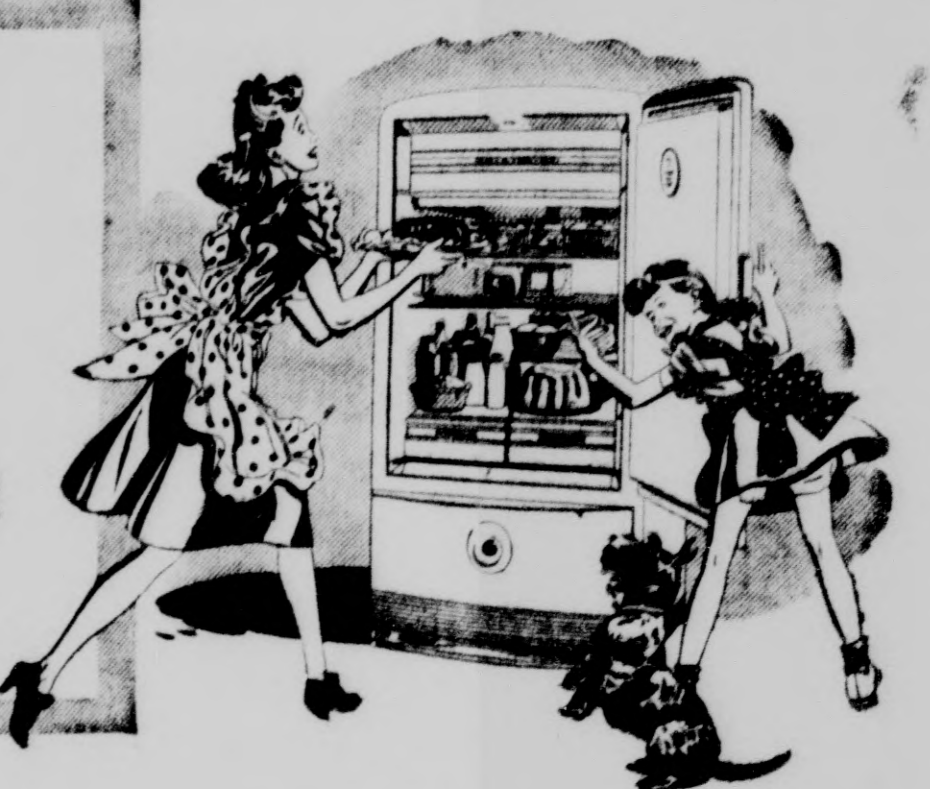

NEW YORK.—(INS)—British soldiers and sailors in New York on extended furloughs have received permission to accept certain temporary civilian jobs. One attractive Englishman, in army uniform, has been running an elevator in a fashionable east side apartment house. On the first day of his new post four tenants invited him to dinner. On the second day he had seven invitations.

## PLAN MANUFACTURE OF ELECTRIC IRONS

NEW YORK.—(INS)—Two million electric hand irons for civilians—the first to be manufactured since 1940—are scheduled for manufacture this year from material released by the War Labor Board to help relieve the shortage of this labor-saver. However, the new irons probably will not reach retail stores until early summer.

## Frigidaire here tells you HOW TO COOK A MEAL IN YOUR REFRIGERATOR

Here are some tricks to help you prepare wartime meals that are as cool to make as they are to eat. For whether it's a full course dinner or a one dish meal, your refrigerator can help you keep cool even when the mercury soars.

**A Whole Meal in One Dish!** Pictured below is a Tomato Aspic Ring that tastes as good as it looks. The center is filled with chicken salad. It's garnished with crisp, curly endive and deviled eggs. Prepare your Aspic Ring in advance. Keep it in the mold in your refrigerator. Even the eggs may be cooked the day before, shelled, then chilled. Save the recipe in the last column.

**Making a Hot Soup Cool as a Cucumber!** Don't freeze jellied consommé! Chill it quickly in your refrigerator. (If you're using bouillon cubes, of course it's important that you add gelatin for thickening.)

**The Secret of a Crisp Salad** lies in chilling the ingredients before they're mixed. Keep in your refrigerator until just before serving. Never add the dressing until your salad is ready to go on the table. Be sure to read the many other helpful hints in Frigidaire's new booklet, "101 Refrigerator Helps."

**Ice Cream for Dessert!** Buy your favorite ice cream when it is available. Keep it in the freezing compartment until time to serve. Store in a container or ice tray covered with waxed paper. Turn the temperature control to colder position. Keep it frozen.

**When You Make Iced Tea**, never add the ice cubes until the last minute or you'll dilute the strength, lose some of the appealing aroma. Incidentally, don't cool tea in advance, for it sometimes develops a cloudy appearance.

## Grand-Testing Tomato Aspic Ring

(8-10 servings)

3½ cups stewed tomatoes  
1 tbsp. chopped onion  
1 dash celery salt  
3 cubes  
1 tsp. sugar  
¼ tsp. salt  
2 sheets gelatin, dissolved  
in ½ cup cold water  
3 sheets lemon juice

Combine tomatoes and seasoning and cook. Use high heat to bring to boiling point. Simmer for fifteen minutes. Add gelatin. Strain, and add enough water to make 3½ cups. Add three tablespoons lemon juice. Pour into ring mold. Place in refrigerator to chill.

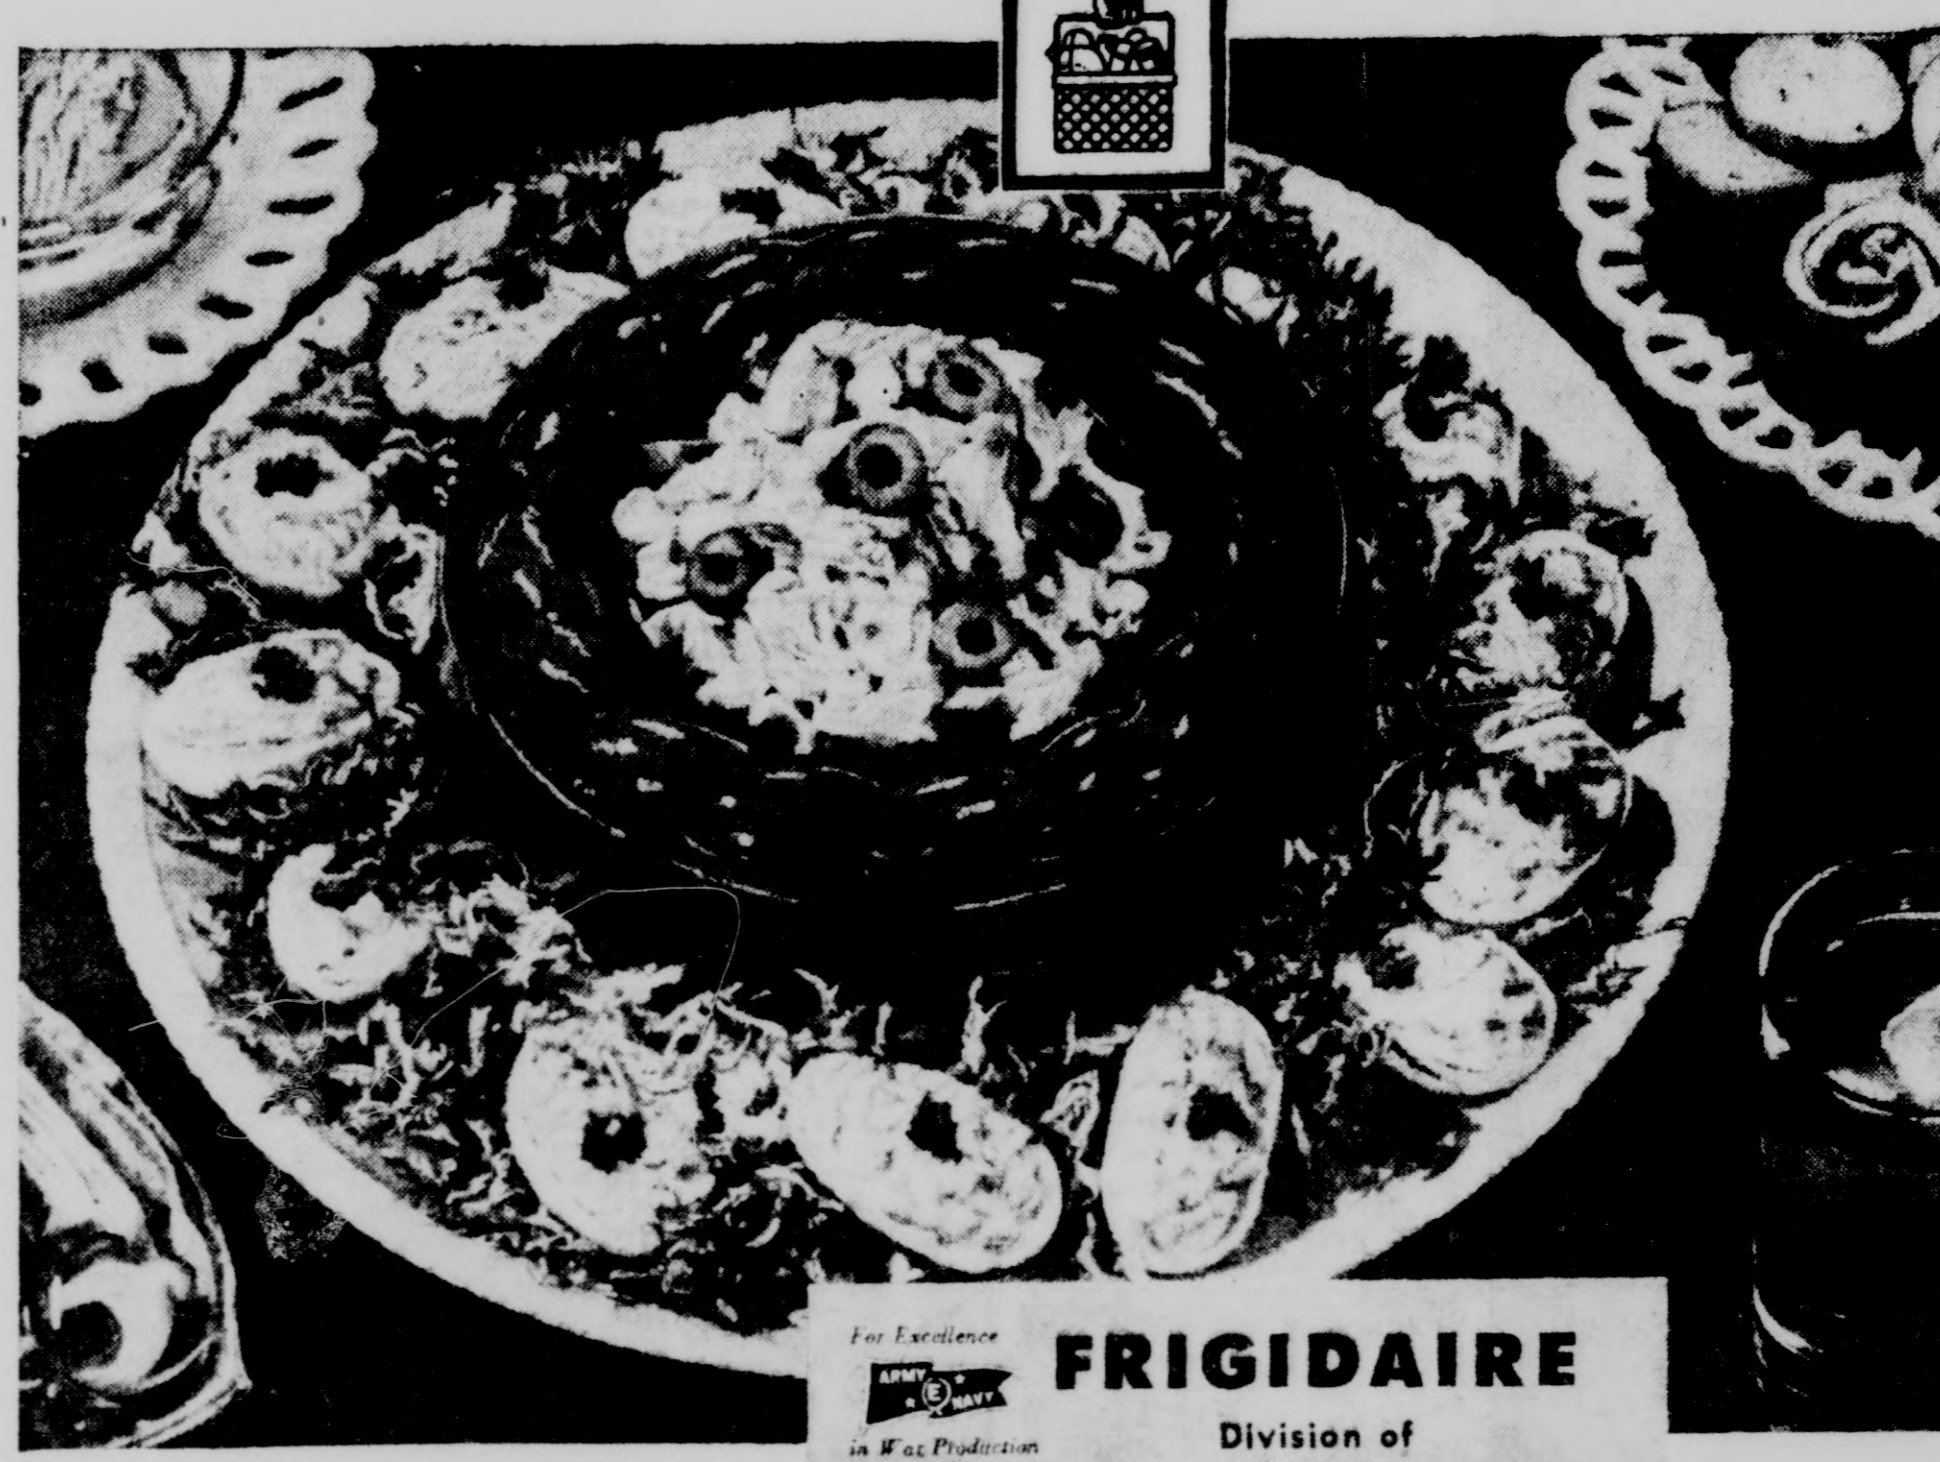

Unmold on platter, using crisp endive. Fill center with chicken salad. Garnish with slices of stuffed olives.

Prepare dozen (24 halves) deviled eggs, chill thoroughly, add dash of paprika and sprig of parsley to each. Tuck deviled eggs in sprigs of endive.

## NEWS AND VIEWS AT CAPITAL

HARRISBURG, August 1.—The state elections bureau has reported that federal ballots were being received in dribbles from sailors and up to July 29 only 22 had been checked. Under the servicemen's voting act the ballots must be invalidated because the commonwealth refused to accept the provisions of the election law approved by congress. However, secretary of the commonwealth Charles M. Morrison has given assurances that sailors mailing federal ballots will not lose their opportunities to vote in the presidential election. Local election boards have been notified of the sailors' military addresses and instructed to mail a state ballot not later than September 2. The army did not distribute federal ballots yet and the reason for the haste on the part of naval officials was not apparent.

The department of property and supplies has awarded a \$152,000 contract to a construction firm headed by Matthew H. McCloskey, of Philadelphia, former Democratic leader for repainting the 50,000,000 pound capitol dome. The workmen have erected a scaffolding 240 feet high to enable them to work on the dome, a copy of the one topping St. Peter's cathedral in Rome.

The disclosure by a state defense council official that 22,000 "known subversives" were under the surveillance of authorities was the first hint of the scope of the anti-sabotage program in which the council and the police have cooperated since the attack on Pearl Harbor. Former state police commissioner Lynn G. Adams would never discuss the program and his successor, Col. C. Mark Wilhelm, has been as close-mouthed. All that is known about the program is that it blankets Pennsylvania because it produces one fourth of the armament used by the Allied nations.

## Dewey Cheered At Springfield

By ED. W. O'BRIEN  
(U. S. Staff Correspondent)

SPRINGFIELD, Ill., Aug. 1.—Another huge crowd, the second in two days, cheered Gov. Thomas E. Dewey today as the Republican presidential candidate arrived in Springfield for a continuance of conferences of post-war reconversion with leaders in the fields of labor, business, agriculture and politics.

Gov. Dewey, who left Pittsburgh last night carrying with him assurances from Republican leaders that he has a good chance of carrying Pennsylvania and West Virginia in November, left his train at the Illinois capital at 11:05 a.m.

Crowds jammed the Springfield station and lined the streets of the city to greet the Republican nominee, who was met by a reception committee headed by Gov. Dwight H. Green and Mayor John Kapp.

The governor went directly to the executive mansion which was to be his headquarters for the day's conferences. They were to commence after a visit by Mr. Dewey to the tomb of Abraham Lincoln, where he was to place a wreath.

## AMERICAN FORCES NEARING BRITANNY

American Forces Now South Of  
Avranches, Five To Seven  
Miles From Brittany

(International News Service)

The Americans are not in Brittany yet—but they soon will be. The boundary line dividing Normandy from the province of Ile de France, the nearest section in Brittany to the advancing American troops, dips and curves.

But the Michelin road maps of France, the standard charts for motor travelers in peace time days, shows that the actual Brittany boundary is some distance away.

From the southern outskirts of Avranches, the nearest towns within Brittany are Pieuze, Pougues, 12.4 miles to the southwest, and St. Martin, 10.5 miles to the southeast.

Both are exactly on the provincial boundary line.

Latest reports from the battlefront placed the Americans some five miles south of Avranches—in other words, with from five to seven miles to go before Brittany is entered.

## NAVY CLOSES UP AT WESTMINSTER

Cadets And Officers Await Orders  
As Program Is Completed  
At College

Part of Westminster college for approximately two years, the school's Navy air cadet training program officially closes tomorrow, August 3, according to Russell Cansler, coordinator between the program and the college.

Going back to the old Civilian Pilot Training, almost 2,000 fliers have been trained at the college and at the New Castle airport. Many groups of Navy men have been sent in, some for eight weeks, and some for ten or twelve. Most cadets in the last group are now home on leave but will return on August 8 to receive their orders, Mr. Cansler said.

Of the officers, Lt. Gardner is the only one who has not yet received his orders. Lt. Armentraut will be stationed outside of the United States, while Lt. Winkla will remain at a Navy base within the country. Ground instructors are leaving now for other positions.

Closing up a program which has been under way for so long takes time and plenty of work, Mr. Cansler explained. By fall, however, Hillside dormitory will no longer be the U. S. S. Hillside; it will be an ordinary dormitory for college girls again.

Westminster also trained a large group of Army men under the ASTP program last winter. No other program, either Army or Navy, is in such need, as far as college officials know.

## STATE EXCEEDS WAR BOND GOAL

Individual Subscriptions' Goal Is  
Not Met In Recent Campaign, However

PHILADELPHIA, Aug. 1.—(INS)—Pennsylvanians, although surpassing their \$1,082,000,000 overall quota for the fifth war bond drive, failed to meet their individual subscriptions goal. Chairman G. R. Hildner, chairman of the State War Finance committee, announced today.

Final figures for the campaign which ended last night, will not be available for several days, Rebmann said. He listed total sales cleared through Saturday, as:

Individuals including "E" bonds, \$395,936,121, or 89.6 per cent of the \$442,000,000 quota.

Series "E" bonds: \$187,847,512 or 83.9 per cent of the \$224,000,000 quota.

Corporations: \$819,900,000 or 128.1 per cent of the \$640,000,000 quota.

All issues: \$1,215,902,614 or 112.4 per cent of the \$1,082,000,000 quota.

Meanwhile, the American League today began an intensive 17-day campaign to sell \$2,000,000 in war bonds before the opening of its annual state convention August 17.

Commander Frank X. Murray said the sales will go to purchase five bombers which will be named for five deceased past department commanders.

Y.M.C.A. NOTES  
Camp Rentz Opens Fourth Week  
Monday morning the fourth week campers got their places and cabins arranged and were getting acquainted with one another.

Camp Director William Winter instructed the boy campers as to their daily activities. The boys soon got under way with their early morning games, followed by a cool refreshing dip in the stream.

In the afternoon they took up with much zest the activities of that period, baseball, volleyball and an afternoon swim.

After supper, more games were enjoyed, which closed a wonderful day of recreation.

The camp attendance is up to capacity.

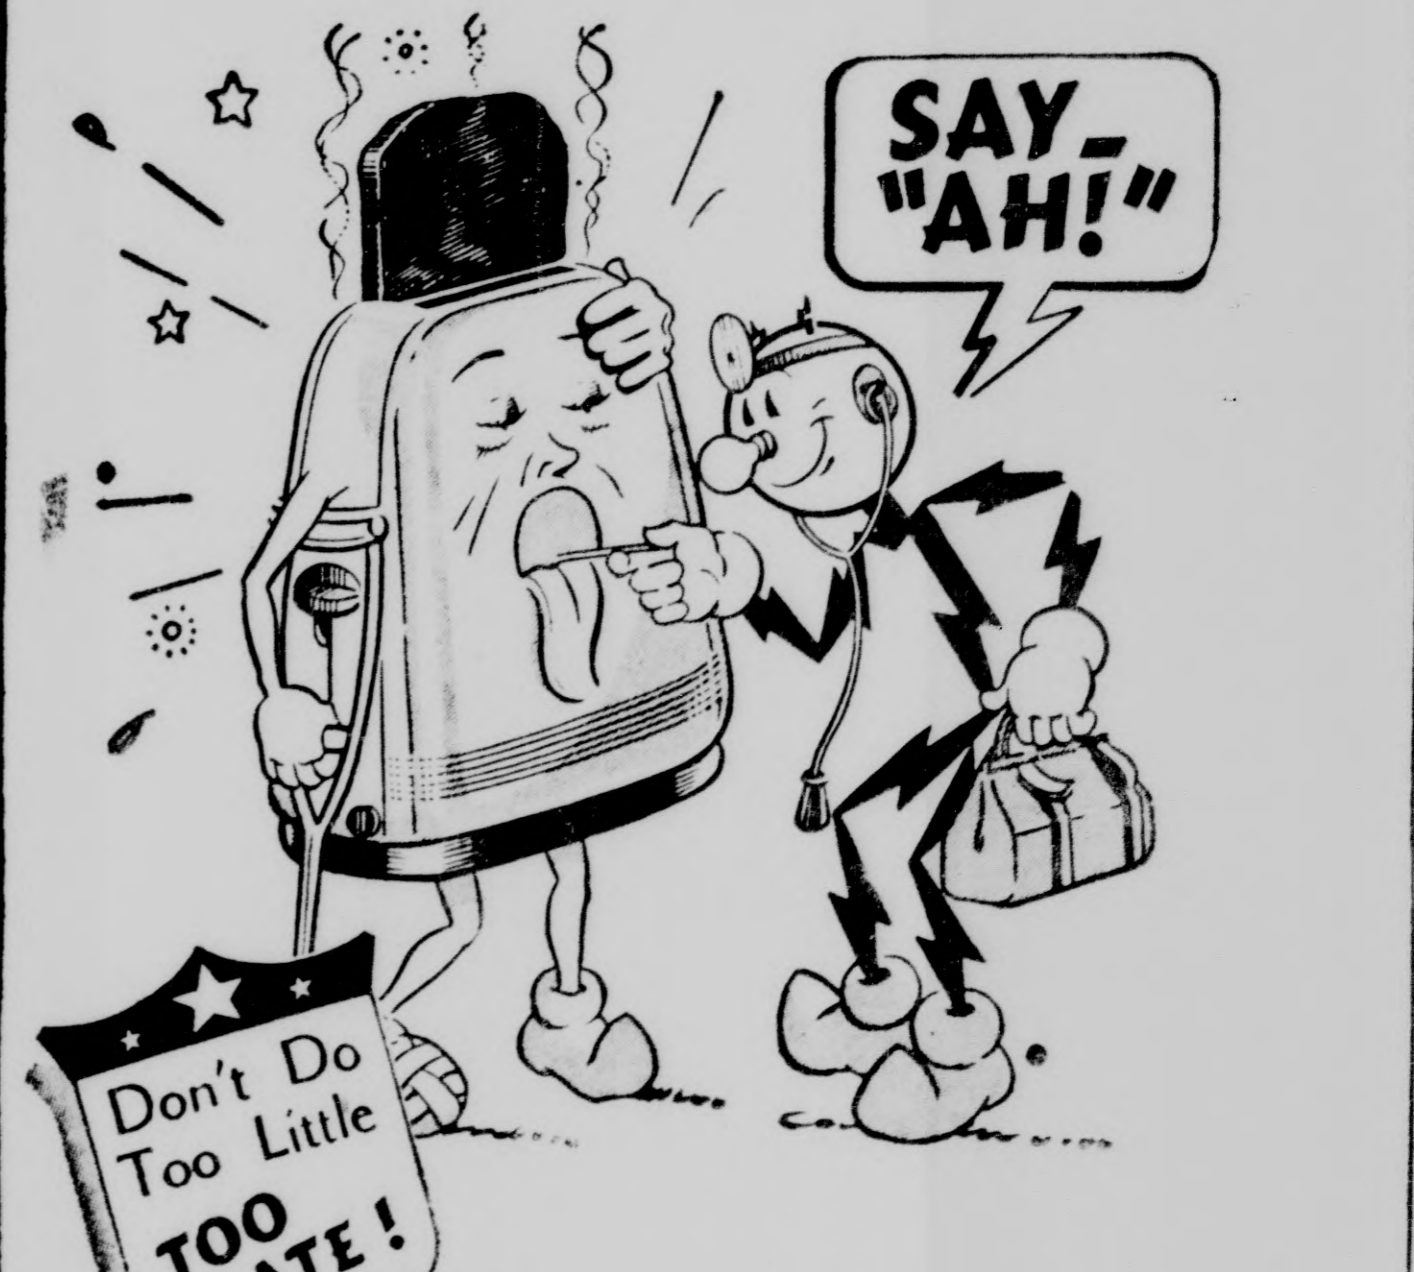

Articles Left At Camp  
Some of the boys who attended Camp Rentz during the past three weeks forgot to gather up all their belongings to take back to their homes.

These articles have been brought into the Y. M. C. A. headquarters where the boys may secure them by calling at the office for same.

## War Labor Board Orders Strikers Return To Jobs

Seven Thousand Chevrolet Gear  
And Axle Workers Asked To  
Return To Work

DETROIT, Aug. 1.—(INS)—Seven thousand striking employees of the Chevrolet Gear and Axle Company's five plants were ordered by the War Labor Board today to return to their jobs.

The board also attempted to settle a dispute which hit four Montgomery Ward stores over the alleged firing of 100 department heads according to union officials. The dispute was referred to labor department conciliators who said they would meet with the representatives of the company and the union.

Union leaders said three stores were manned by skeleton crews while a fourth, in Royal Oak, was closed. They charged Royal Oak employees had been "locked out."

Union leaders, who said they were "tired of seeing our people kicked around by violation of WLB directives and refusal to pay overtime," reiterated that the strike was authorized and appended to the WLB for help in settling the dispute.

Samuel Wolchok, international president of the clerks' union, warned that unless the situation was rectified, a general walkout in Ward stores would result.

## Wartime Canning Notes

Home Economics Extension  
Representative

### TIPS ON SELECTING FOODS FOR EXHIBIT

Home canners are going to have a chance to show what excellent canning can be done at home when they exhibit their products at some of the numerous harvest shows during the next few months.

To help them select and exhibit their best canned foods, a few suggestions are offered. First of all, canned products are judged as to general appearance, quality of the product and the container. Canned fruits and vegetables are not opened while pickles and jellies usually are because taste and texture are so important in judging.

If two or more jars are to be exhibited in one group, select like containers. Wash the containers in hot water so that they fairly shine. New lids are not essential in the judge's opinion, but they do add to the appearance of the jars.

The quality of the canned fruit or vegetable is judged as seen thru the container. The food should be clean, showing no dirt, pieces of skin, decayed or bruised parts. In canned snap beans there should be no string or large beans. Pieces should be uniform and of a size to pack compactly into a jar. Fancy packs are not recommended for exhibit. The liquid should be fairly clear and should fill the jar to within an inch or a half-inch of the top of the jar. Foods should have kept their shape and natural color as near as possible.

Homemade pickles are an olive green, not a bright green. Jellies should be clear, transparent and firm enough to keep their shape but not stiff.

## CLARE LUCE TO SEEK NEW TERM

Republican Party Glamour Girl Will  
Seek To Be Re-Elected In  
Connecticut

GREENWICH, Conn., Aug. 1.—(INS)—Clare Boothe Luce, the Republican party's glamour girl in Congress, insisted today that she "certainly shall run" for re-election in Connecticut's Fourth Congressional district.

She further insisted she will win, despite what she describes as charges of her opponents that she is afraid of being purged at the polls by Sidney Hillman's political action committee. This was a challenge, she said, that she could not ignore.

Has Opposition  
The CIO congressional committee in Bridgeport, largest city in Mrs. Luce's district, has endorsed Miss Margaret E. Connors, 29-year-old Bridgeport attorney who is seeking the Democratic nomination for the congressional post.

"The people of my district know that my voting record on questions affecting organized labor has been consistently in labor's behalf," said Mrs. Luce. "I refuse to let my opponents claim that Sidney Hillman of New York City controls the rank and file of labor in Bridgeport."

## Denial Of Union Request Upheld

WASHINGTON, Aug. 1.—(INS)—The War Labor Board today upheld a Philadelphia regional board order denying a union request that an employee joining the Merchant Marine be granted the same re-employment rights as employees serving in the armed forces.

The WLB decision was issued in a case involving the national Maritime union of America and the National Marine Engineer's Beneficial Association, both CIO, which acted as bargaining agents for 20 uncensored personnel on two coal boats operated by the Crucible Fuel Co. of Pittsburgh, Pa.

### UNCLE AND NEPHEW

MEET AFTER 36 YEARS  
Mr. and Mrs. Harry Dattilo, of 114 North Wayne street, have returned from a visit to Camp Perry, Ohio. There they visited with the former's nephew, John Dattilo, who is one of a group of Italian prisoners of war now located at that camp.

Mr. and Mrs. Dattilo enjoyed their reunion with their nephew and had dinner together in the camp. John is desirous of learning the American language and has a book which he studies for that purpose. Says he is not a member of the Fascist party. This is the first time uncle and nephew have met for 36 years. John says he is happy to be in the United States.

### BIRTHDAY HONORED BY GIRL FRIENDS

At the home of Mr. and Mrs. I. H. McOwen, of 512 West Madison avenue, a group of girls, co-employees of Department 33, of the Shenango Pottery plant, gathered for a party honoring their daughter, Miss Catherine McOwen. The occasion was for celebrating the eighteenth birthday anniversary of Miss McOwen.

Musie and cards were the main diversion of the evening. The honored guest served a delicious lunch, and had as her aides Misses Betty Ayers, Betty Marshall and Clar Minter. The table was graced with a lovely birthday cake, and was appropriately decorated.

Miss McOwen was the recipient of nice gifts.

### MARKSMAN'S MEDAL

Word has been received from Maxwell Field, Ala., that Aviation Cadet Ralph M. Shaw, 18 years of age, son of Mr. and Mrs. Clyde M. Shaw, of 307 Second street, was recently awarded a marksman's medal for proficiency in firing the 45 caliber automatic pistol at Maxwell Field, an installation of the AAF Training Command. There, Aviation Cadet Shaw is completing 9 weeks of intensive military, physical and academic training.

### SENTINELS MEET THURSDAY

Announcement is made by Mrs. Nancy Thayer, president, that the Mahoningtown Sentinels will gather Thursday evening for a short important meeting at the post, 313 North Liberty street. New regulations on blackouts will be discussed.

### TONSILS REMOVED

It is reported that Stanley Cangey, son of Mr. and Mrs. Andrew Cangey, of 223 South Liberty street, is getting along nicely. Stanley had his tonsils removed by a surgeon at his home Monday morning.

### ARRIVES IN ENGLAND

Word has been received from Cpl. Benny Russo by his wife and his mother, Mrs. Samuel Russo, of 221 South Liberty street, that he has arrived in England.

### SEVENTH WARD PERSONALS

Mrs. Catha Bunnell, of Lafayette street, who received treatment at the Jameson Memorial hospital, has returned to her home.

Mrs. Virginia DeMark and daughter, of South Wayne street, have returned to their home from the Jameson Memorial hospital.

Miss Ruth Taylor, now employed by the state in Harrisburg, visited over the week-end with her father, Samuel H. Taylor of North Ashland avenue.

Mrs. Emma Sandora, of 207 South Liberty street, has left for a visit with her husband, Sergeant Pat Sandora, attached to the Engineers Corps, stationed at Bucyrus, Ohio.

Mrs. William Burns and daughter, Barbara, of Coraopolis, are vacationing at the home of the former's parents, Mr. and Mrs. John McHattie, of North Ashland avenue.

Mrs. Elsie Presnar, of 9 Maple street, has been admitted to the New Castle hospital.

Mrs. William O. Morris, of Parkersburg, W. Va., has returned, after visiting for a week, at the homes of her parents, Mr. and Mrs. P. J. Gormley, of 707 North Cedar street, and her sister, Mrs. Perry Burk and family, of 308 North Cedar street.

Mrs. I. H. McOwen, of 512 West Madison avenue, has left for a trip to eastern states, where she will visit with her son, Movie Projector Harry "Pat" McOwen, U. S. Coast Guard, stationed in New York City, her sisters in Newark, N. J., and her husband's mother, in Philadelphia.

Mrs. R. H. Barker, of Avon on the Sea, N. J., former resident of the ward, is visiting at the homes of Mr. and Mrs. George Huff, of North Cedar street, and Mr. and Mrs. Steve Cushion, of North Liberty street.

Mrs. Etta Stiles, of Johnstown, has returned home, after spending a week, visiting with her sister, Mrs. Jessie Burnside, of West Pittsburgh road.

WASHINGTON, Aug. 1.—(INS)—The Army is not yet ready to turn any of its famous jeeps over to industry for transportation purposes.

Gen. Brehon Somervell, chief of service and supply, today informed Chairman May D. Ky. of the House military affairs committee that the Army "couldn't possibly" let civilians have jeeps at this time, adding that all available vehicles are needed in active service.

When their boat capsized in the surf in the ocean west of Ventura yesterday, Mary Jane saw it and taking an inner tube swam to their aid. She brought the boy to shore on the tube and then, with the aid of another 12-year-old girl, swam back and towed the overturned boat to shore with the men clinging to it.

## LIGHTS STOLEN FROM HONOR ROLL

East Washington Street-Adams  
Street Board Will Not Be  
Lighted In Future

Passersby who have enjoyed the lighted service board at the corner of East Washington and Adams street will be denied this minor pleasure in the future. The board will not be lighted.

It isn't that the good people of this district are unwilling to light the board but they have finally decided they can not compete with vandals and thieves.

When the board was installed a set of lights was put in. This set was stolen and replaced. Another set was put in and this set was stolen. Still a third set was installed and now some petty sneak thief low enough that he could walk under a snake, has taken the third set.

The board is now filled with names, with a number waiting to be put on. It is planned to take contributions from the people of the East Side to provide a wing for the board and it is estimated it will take about \$75. But no more outside lights. Some moral 4-F apparently needs the lights more.

## Former Ellwood Man Heads Lorain Plant

L. F. Satterlie, formerly assistant general superintendent of the National Tube company's plant at Ellwood City, has been appointed general superintendent of the Lorain Works at Lorain, Ohio, according to an announcement from E. N. Sanders, vice president of the company.

Mr. Satterlie, a graduate of Carnegie Institute of Technology, was employed in the blast furnace department at Lorain before being transferred to Ellwood.

## AUTO RATIONING WILL CONTINUE

State Motor Federation Sees Continuation Even After End Of European War

By JOHN PAGET  
(U.S.S. Staff Correspondent)

HARRISBURG, Aug. 1.—Passenger car rationing will continue late next year with most models reflecting 1942 styles even if the war in Europe is concluded by November 1944, the Pennsylvania motor federation predicted today.

The federation endorsed a confidential report of the parent American Automobile Association stating that the end of European hostilities could be expected to result in the acceleration of an \$800,000,000 automobile parts program as well as increased tire rationing and better quality of gasoline. The November date, it was emphasized, was based upon speculation.

Passenger car production, the report said, would be marked by the refusal of federal authorities to give the "green light" simultaneously to all automobile companies.

"Instead we believe that official thinking points to a start of production by whatever companies are released from war production as soon as the assembly lines can be put into operation," it was asserted. "We would expect cars to be rolling off the assembly lines early in 1945. But by the same token, we believe that passenger car rationing would continue throughout 1945 or the larger part thereof."

The replacement parts program the organization stated, would be spurred because "there would be more manpower available and the advent of new cars itself would give a tremendous life to every phase of the parts manufacturing industry."

"There is no reason to believe that the government would seek to continue the current restrictions in the interest of car and tire conservation," the report stated. "It is doubtful if the government could do that even if it tried."

"So, we believe that gasoline rationing would continue for a period of several months out with the structure considerably liberalized. We would expect a quick improvement in the quality of gasoline."

## State Liquor Board Makes No Promises

HARRISBURG, Aug. 1.—(INS)—

The state liquor control board said today that the August liquor making holiday will be "helpful in replenishing supplies" but was unable to predict whether rationing would be increased in Pennsylvania.

The nation's distilleries began production of beverage alcohol at midnight for the first time since October, 1942. Industry sources have estimated that about 50,000,000 gallons will be made during the month-long holiday which was authorized by the War Production board.

"The effect of the holiday will be a helpful one in replenishing supplies of whiskey," a board spokesman said, "but just how beneficial it will be to buyers we are unable to ascertain at this time."

The spokesman pointed out, however, that this will be "in greater quantity" than in the past few months and added that the volume was not expected to be as great in pre-rationing days.

## Excess War Goods Will Be Available

Several Billion Dollars Worth Will Be Used For Public Consumption

WASHINGTON, Aug. 1.—(INS)—Postwar surplus property disposal plans reached the market stage today following an Office of War Information disclosure that approximately 500 million dollars worth of excess war goods has already been channeled into the civilian economy.

An OWI survey said that between 50 and 100 billion dollars in surplus goods would be available after the war, but added that many items, including clothing, medicine, and mechanical equipment, would be earmarked for foreign rehabilitation in evacuated areas.

OWI reported that disposal of excess goods is currently about 25 million dollars a week with airplane sales amounting to approximately \$10 million. It estimated that about 15 million dollars in war planes, military goods, war housing and government-held minerals and metals would be available to the U. S. public after the war.

Mindful of the post-World War I economic debacle, OWI said the surplus war property administration has recommended a broad program of contract cancellations and sealed bid sales through normal trade channels. The proposal calls for emphasis on small lot sales to forestall monopolies and speculation.

## Rotarians Hear Of Explosives

Research Engineer For American Cyanamid And Chemical Corporation Speaks

Explosives in war time were discussed before the Rotary club Monday night in the Castleton when L. V. Clark, research engineer for the American Cyanamid & Chemical Corporation was the speaker.

Mr. Clark began with the history of explosives of the black powder developed by the Chinese and coming on up through Nobel, the discoverer of dynamite, showed the importance of explosives in war time.

In the present war there is a new explosive far more powerful in its effect than TNT, but thus far a military secret. The new explosive is one of the reasons the bombing missions of the allied nations have been so devastating in raids over Europe.

The luncheon meeting was presided over by President Harry L. Elder and Mr. Clark was introduced by Roger E. Jewett of the Greater New Castle Association.

## Hope's Birthplace Is Damaged By Bomb

HOLLYWOOD, Aug. 1.—(INS)—A Nazi robot bomb had damaged the home where comedian Bob Hope was born in Eltham, England. Paramount studio was informed today.

The news, said studio spokesmen, came in a letter from an American lieutenant who, months ago, visited Hollywood and the set where Hope and Bing Crosby were making the picture "Road to Utopia."

The letter, addressed to Hal Walker, director of the film, volunteered no further details.

Hope probably won't get the report, it was said, until he returns from an entertainment tour of Pacific bases.

## Wage Of \$7.50 Not Attractive

WILMINGTON, Del., Aug. 1.—(INS)—There was a day in New Castle county when \$7.50 a fee for acting as registrars drew plenty of the politically favored.

This year, however, more than 100 registrars in the county's 204 election districts just didn't show up. Board of registry officials couldn't round them up either—despite the reminder of a \$100 fine as penalty for non-appearance.

"These war jobs are to blame," one official said. "They're all making so much money that \$7.50 just doesn't mean anything to them anymore."

Fifty-five per cent of the employees at the Sunflower Ordnance works at De Soto, Kan., are women. A year ago only 23.37 per cent were women.

## Paris Fashions Not So Hot, Lady

Washington Street Has More To Offer This Fall, According To Reports From Europe

Few persons thought it would come to this, but New Castle will be offering much better styles than Paris this year, judging from what an INS correspondent says of the French numbers, and judging from what a little observation shows about the local fall clothes angle.

That French fashions are going lavish and a little bit wild is not just German propaganda, the correspondent says. They seem to be somewhat like the ornate styles of 1910, with the hats being especially large and elaborately shaped, piled with veils, ribbons and flowers.

Over here, there seems to be a minor revolution going on, a reaction against the strict casualness of the past two or three years, but the emphasis is still on slim, clean-cut lines that suit the business woman and college girl.

Black is still the dullest color, but fuchsia, moss green, coffee brown and gray are turning up in everything from accessories to coats. Sequins and beads are trimming the dresses, which, by the way, are often two-piece affairs, sometimes with a tunic.

Suits are dressier, too, with even gabardines coming in soft, dress-maker styles. The jackets are often the cardigan type which look so well with round-neckline blouses. The newest coat is the tuxedo style with flat fur trim and a color range from black and gray fuchsia.

High colors are good in hats, too, although some black satin jobs have been noticed around town. Some are large and draped, but most seem to be off-the-face types, turbans and gaily trimmed sailors so far.

Rich color and variety seem to be the keynote in the fall clothes being shown around town, but with it all, none of the simplicity of line and practicality which moderns have come to love in their clothes, has been lost. And materials are good, in spite of war time difficulties.

## Charge Jap Sub Crew Murdered Liberty Ship Crew

NEW YORK, Aug. 1.—(INS)—

Roy Porter of the National Broadcasting company, radioed Monday from Chongtu, China, the story of the brutal murder of about three-quarters of the crew of a U. S. Liberty ship in the Indian ocean in mid-June by seamen of a Japanese submarine.

Porter says the story is well substantiated by an American who recently arrived in China. Of about 100 crew members of the ship, only 23 were saved. They now are hospitalized following their rescue by a scouting plane.

According to the story, Porter said, the American ship was torpedoed, the crew members taking to lifeboats. Then the enemy sub surfaced and ordered all the Americans to the foredeck, where they were beaten and tortured, their hands tied behind their backs. Many were killed during the orgy and their bodies kicked overboard, Porter added.

The orgy ended only when a scout plane approached and the Jap vessel submerged, leaving the surviving seamen thrashing in the water, their hands still tied. They were rescued after 15 hours in the water.

## CANTON FIRE LOSS AT STAGGERING SUM

CANTON, O.—(INS)—A staggering fire loss in the city of Canton during 1943, 800 times heavier than losses in any one previous year, was shown in the annual report compiled by Fire Chief George E. Jacobs. The loss of \$636,582 as compared with \$79,108 in 1942, cost \$5.30 per capita on an estimated 120,000 population.

BLAMES PARENTS  
JOHNSTOWN, Pa.—(INS)—A large share of the blame for juvenile delinquency was heaped by the Rev. J. J. Hannon, of Johnstown, upon fathers who should "give less time to business and more time to being good parents." The Baptist minister warned that parental apathy is one of the greatest dangers of our time.

## Reveal Russians Flew Planes To Siberian Bases

SEATTLE, Aug. 1.—Operations of the Alaskan-Siberian plane ferrying command—shrouded in utmost secrecy for two years by the United States and Russia—were revealed today by Rep. Warren G. Magnuson (D., Wash.), in an interview published by the Seattle Post-Intelligencer.

Disclosing that an extensive Russian-manned air base exists at Great Falls, Mont., the Seattle newspaper quoted the Democratic congressman as saying that fighter planes and short range medium bombers "by the hundreds" have been delivered to representatives of the Russian government at Fairbanks, Alaska.

### Flown To Siberia

Magnuson said the planes are armed and painted with the Red star at Fairbanks and then flown to Siberian bases by Russian pilots. Major portion of the ferrying is done by Russian women pilots, it was disclosed.

The congressman revealed that a staging base for Russian-bound planes is in operation at Nome, Alaska, but on a smaller scale than Richardson Field, at Fairbanks.

He said that Richardson field is completely staffed with Russian crews under the command of a Russian air force colonel. The ground crew includes aerographers, mechanics and other maintenance personnel.

### Gives U. S. Planes Credit

The congressman gave the American-made planes full credit for breaking up the German attack on Stalingrad, when he told the Post-Intelligencer:

"At last we may reveal long secret operations of Russian staffed service bases in the United States and Alaska from which Soviet pilots ferried the fighters that turned the tide at Stalingrad."

EDMONTON, Alta., Aug. 1.—(INS)—Royal Canadian Air Force headquarters at Edmonton announced today that 10,000 planes have been sent to Russia under lend-lease.

Headquarters said that 5,000 of these planes have been ferried by Russian pilots over the Alaskan-Siberian route, existence of which was disclosed by the Seattle Post-Intelligencer in a published interview with Rep. Warren Magnuson of Washington.

## Ellwood Girl Scouts Gather Erie Cherries

Local Girls Spend Vacations Helping Farmers: Clean 600 Bushels Out Of Erie Orchards

Helping with the production of food, as necessary as ammunition in wartime, 26 Ellwood City Girl Scouts spent several weeks picking cherries in Lake Erie orchards during July. Donald L. Cameron of the Emergency Farm Labor Office, said today.

During their stay, they picked 40,000 pounds of cherries, or about 600 bushels. Both the girls and their supervisors plan to return in August to be in on the harvesting of peaches and grapes, but until then, they are helping out at home, picking tomatoes, beans and cucumbers. Recruited by the Emergency Farm Labor Office, the girls were taken to and from the lake by a bus chartered for them. Under the supervision of Mrs. J. D. Sartwell, Mrs. E. V. Hedberg and Miss Chambers, all of Ellwood, the group stayed at Dorri's Villa in Northeast.

## Cost Of Living Slightly Higher

PITTSBURGH, Aug. 1.—(INS)—Cost of living index for Pittsburghers was eight-tenths of one percent higher on June 15 than on May 15, the regional office of the bureau of labor statistics, U. S. department of labor, announced today through its monthly survey.

A breakdown of the figures revealed that retail food prices were up nine-tenths of one percent, while clothing was two percent higher on account of increased costs in men's cotton clothing.

Higher cost of ice was considered responsible for the eight-tenths percent rise in fuel costs, and housefurnishings advanced 2.3 percent owing to increased prices for items under that listing.

## Farrell Brothers Missing In France

MILL RUN, Pa., Aug. 1.—(INS)—Mr. and Mrs. B. P. Farrell today were hoping for further word from the War Department concerning their two paratrooper sons reported missing in France since D-day.

They received a telegram stating that Cpl. Patrick C. Farrell, 28, was missing, following a message to their daughter-in-law, Mrs. Vera Harvey Farrell, that her husband, Pvt. James J. Farrell, 25, was also missing in Normandy.

Another son, Sgt. Jack Farrell, is serving with the Army in New Guinea.

## Three Are Given Stiff Sentences

HOLLIDAYSBURG, Pa., Aug. 1.—(INS)—Three Altoona men were under sentence today after pleading guilty to burglarizing Pennsylvania railroad box cars.

Norman R. Maurer, 41; Clarence Howard Cox, 32; and George W. Hoover, 31, were sentenced by Judge George G. Patterson to serve two and one-half to five years at separate and solitary confinement at hard labor in western penitentiary and to pay fines of \$1,000 each.

The thefts were committed while the three were employed as brakemen at the Altoona railroad yards.

# Turkey's Entry Into War Is Not Desirable Now

By LEON PEARSON  
(U. S. Staff Correspondent)

WASHINGTON, Aug. 1.—(INS)—In the midst of rumors that Turkey may come into the war, Washington officials today expressed the candid but somewhat surprising view that such a move is not wholly desirable and might do more harm than good.

At the same time, it was made emphatically clear that a complete break of commercial relations between Turkey and Germany is highly desirable, and this would doubtless be followed by a break of diplomatic relations.

But if Turkey took the next step—an actual declaration of war against Germany—the result might be a war between Turkey and Bulgaria rather than between Turkey and Germany.

Thus the whole Turkish effort would be expended in a side-show to the European war which would accomplish little for the Allied cause, but only bring destruction to Turkish cities and also destruction to the Balkan federation which Turkey desires to reestablish.

Officials who expressed this view asked the simple question: Who is Turkey going to fight? The answer was, if Turkish troops move into Bulgaria to drive out the Germans, they will also be confronted with Bulgarian troops, fighting to defend their own soil.

Desired Course  
Rather than to create this new international embroglio, it was pointed out that the desired course in the part of Turkey would consist of these four steps:

1. A complete break of commercial relations with Germany. Already the Allies have pressed Turkey into a 50 percent reduction of exports to Germany, including a 100 percent stoppage of chrome shipments.

2. A diplomatic break, which

# ASSERT NAZIS PLAN TO BOMB TURKISH CITIES

LONDON, Aug. 1.—(INS)—Swedish correspondents in Berlin were told by a German spokesman that the moment Turkey breaks off relations with Germany "the Luftwaffe will bomb Turkish cities," a Stockholm dispatch to the London Daily Mail said today.

From Istanbul the Daily Express carried a dispatch saying that Germany in close touch with events believe that Turkey may announce an alliance with Russia and the United States similar to the Anglo-Turkish agreement which will be followed by an offer of air bases in Turkey for use of United Nations air forces.

Barring "surprises" by the German air force, the dispatch said, it appeared certain that Turkey would not declare war on Germany. She would, it was said, confine her part to aiding the allies and rupturing diplomatic relations with the Axis.

# 'HANG HITLER' IS SOVIET DEMAND

No Easy Death By Bombing For Nazi Dictator Is Favored By Russia

WASHINGTON, Aug. 1.—(INS)—The Soviet government, through its embassy in Washington, was on record today as favoring the hanging of Hitler by "a halter around his neck."

In an official comment on the recent bombing attempt on Hitler's life, the embassy said:

"And as to the principal figure in the show—the cannibal-in-chief—it isn't a bomb he needs. That would be too easy a death for him. In one way or another he will have to die soon. But a rope will be better. A halter around his neck is the thing for him."

The statement was signed by Ilya Ehrenburg, official Soviet war commentator and author of the recent Soviet "Justification of Hate."

In today's statement, Ehrenburg declared:

"I'll confess that I am glad Von Stauffenberg's bomb didn't lay out the fuhrer. The only suitable punishment, he said, would be a hope and halter."

In blunt language, this was the same thought expressed in more diplomatic terms by President Roosevelt, Secretary of State Hull, and officials of the other Allied governments.

At the Moscow conference last October, the big four solemnly resolved, as part of the Moscow declaration, that all responsible German officials "will be taken back to the countries in which their abominable crimes were committed, to be charged and punished according to the laws of those countries."

# Discharged Army Dog Is Killed

NEWARK, N. J., Aug. 1.—(INS)—Toby, a six-year-old German shepherd dog, was dead today, a casualty of war as surely as any battlefield victim.

Toby was destroyed by the humane society on the sad order of his owner, James J. Sabia, a box manufacturer of Newark, N. J. The dog had been a member of the army's K-9 corps, but when he was mobilized recently he seemed unable to reacustom himself to civilian life.

"I kept him on a heavy chain," said Sabia, "and when anyone approached he would try furiously to attack. Only when soldiers came would he be quiet. Then he would wag his tail and whimper pitifully."

The Newark manufacturer said he thought that if Toby's master had been there he might have been able to bring him successfully back to normal life. But there too the war interfered, since Lieut. Angelo J. Sabia, 26, who had raised the dog from a puppy, is in England with a tank destroyer outfit.

# W. L. B. Orders Strikers Here Back To Work

In a directive order issued Monday, July 31, by Regional War Labor Board No. 3 in Philadelphia, the striking tool and die shop employees of the Aluminum Company of America are directed to report for duty, Joseph Meiner and L. M. Shearer of the International Die Sinker Conference are directed to use their influence in having the men return, the company is directed to offer employment to all employees who present themselves for work, and the UAW, Local 219, is strongly urged to recognize as in good standing, without any fines, assessments or other penalties, whatsoever, all those who were on December 17, 1943, or who thereafter became members, and who were still on the payroll of the company as of July 28.

Hearing Monday  
The hearing was held in Philadelphia on Monday. Present before the regional war labor board were the following: For the company, General Manager Hugh J. Morrison and Thomas Jones, personal counsel director for the International Die Sinker Conference, Joseph Meiner, and L. M. Shearer; for the UAW-CIO, J. C. Peters. Several workmen were also present at the hearing.

Following the hearing, Mr. Morrison was notified of the action of the board by the following telegram:

In the matter of Case No. 111-9053 AR and the hearing before the Regional War Labor Board of this state, wherein, striking employees of Aluminum Company of America, New Castle, Pennsylvania, were ordered to show cause why the current work stoppage should not end forthwith. The Regional War Labor Board for the Region Three acting as the duly authorized agent of National War Labor Board in the exercise of its powers vested in it by executive order No. 9017 of January 12, 1942, the executive orders directives and regulations issued under the Act of Congress of October 2, 1942, and by the War Labor Disputes Act of June 23, 1943, hereby directs as follows:

1. All such employees still on the payroll of the company who are engaging in a work stoppage shall report for work at the next shift following receipt of this directive order.

2. Messrs. Shearer and Meiner who appeared at aforesaid hearing not in their respective capacities as officers of International Die Sinker Conference but as counsel for those employees presently engaged in a work stoppage shall use their influence in every way possible to see that the work stoppage now in progress terminates at the first shift after the receipt of this directive.

3. The company shall offer employment in the die shop to all employees who were on its die shop payroll on the morning of July 28, 1944, and present themselves for work.

4. The U. A. W. Local 219, is strongly urged to recognize as in good standing, upon payment of delinquent dues but without any fines, assessments, or other penalties whatsoever, all those who were members on December 17, 1943, or who thereafter became members and who were still on the payroll of the company on July 28, 1944.

5. Any dispute not already submitted to arbitration concerning the operation of Article II (maintenance of membership) of the contract between the company and Local 219 of the U. A. W. shall be submitted to arbitration by the National War Labor Board if the parties to the contract and the employees directly involved in the dispute or their representatives cannot agree upon their selection.

Regional War Labor Board III, T. R. Kirtz, Recording Secretary

No Action On 37  
No action was taken insofar as the 37 employees who were dismissed for non-payment of union dues are concerned. The directive applies only to those employees who were on the payroll as of July 28. This excludes the 37 who were dismissed as they were off the payroll at that time, insofar as returning to work under the provisions of the directive is concerned.

At noon today there had been no "back-to-work" movement of the striking tool and die shop workers, but this may have been due to the fact that most of them had no knowledge of the directive at that time. Those men who report back to work will start immediately.

# Paralysis Cases Now Number 85

PITTSBURGH, Aug. 1.—(INS)—Five new cases of infantile paralysis and two additional deaths from the disease today were reported by Pittsburgh's health department. This brings the district's total for persons afflicted to 85 for the period since June 7.

The new cases brought the total to 56 in the city, 22 in the county outside the city and seven in nearby counties, including one from Ohio. The two additional deaths brought the death toll to five.

The latest to die from the dread disease were John Collins, 17, Mt. Lebanon, and Regis Sweeney, two, Pittsburgh.

# Mercer Hears Of New Casualties

Two more Mercer soldiers have been killed and another has been wounded in France, according to war department telegrams received by their relatives.

Those killed were Pfc. Charles Perschka, 27, of Coalingburg township, and Sgt. John Pury, 24, of Mercer, R. D. 5, both of whom were infantrymen. The wounded soldier is Fred Bonacher, reported seriously injured.

# GERMAN ARMY RETREATS BEFORE ALLIES IN FRANCE

(Continued from Page One)

from Caumont took second place to the American drive from Avranches but hardly the less important.

All signs had pointed to a southeasterly swing by the British and Canadians to engulf Falaise and Lisieux and break through at either point for the open country so ideally suited to tank warfare.

But Montgomery chose the opposite direction to link up with the Americans and the element of surprise in this thrust was borne out with capture of more than 10,000 prisoners, 6,000 of which were taken by the United States forces alone.

By KINGSBURY SMITH  
(U. S. Staff Correspondent)

Supreme Headquarters, Allied Expeditionary Force, Aug. 1.—Troops of the American First Army, smashing southward for new gains of four to five miles below the captured Norman city of Avranches, toppled the Germans out of positions securing the western end of their line today.

Combined American and British forces which joined ranks above the Forêt Le Veque began blasting loose the hinge of the Nazi defense line.

German reports hinted at a fresh Allied offensive on the eastern end of the battlefront. Report of violent drumfire in the Caen sector in the early morning hours of today, the Nazi agency DNB said, indicated launching of a fresh big offensive.

The DNB military commentator, Alex Schnalfuss, said that between Juvisy and the Orne river British attacks, supported by flame-throwers and tanks had been repelled but he predicted the early launching of a major British thrust on either side of the Orne.

Counter-Attacks Smashed  
Disparages from an advanced reconnaissance base said that counter-attacks by remnants of a German panzer division in the area of Percy had been smashed and aerial observers said that the Americans and British in their coordinated drives were piercing deep into the German positions.

The British were reported to have gained high ground below the Souleuvre river while the Americans at the center of their battle-line were reported advancing in the Villedieu sector.

The Allies scooped up hundreds more German prisoners.

A Reuters dispatch from Normandy said that the Americans had taken more than 6,000 prisoners on their front yesterday.

The American drive beyond Avranches, front dispatches said, was aimed at the Nazi stronghold of St. Quentin which was reported already under bombardment.

Cross Selune River  
American armor crossed the Selune river at Ducey, Pontault about four miles south of Avranches, according to a Reuters dispatch from U. S. First Army headquarters.

On the Caumont front, Reuters reported, British and American forces pinned ranks northwest of the forest of Leveque, captured the woodland and now are driving south in a powerful double-barreled thrust.

One British column was reported less than two miles northwest of Le Beny Boscage. The British took Alunay, Canteloup, Cahagnes, St. Pierre Du Frense and Fumefont.

At the eastern end of the battlefront beyond the Orne river British captured Tilly La Campanne, Reuters said.

As forward elements of the Yank forces pressed southward below captured Avranches in the direction of Brittany, units of the British Second Army slashed forward in their coordinated offensive south of Caumont.

Headquarters of Gen. Dwight D. Eisenhower said that the Americans had scored advances on a fairly wide area south of the line running eastward from the liberated port of Granville, north of Avranches to Villedieu.

The Americans were said to be within two miles of the town of Villedieu itself.

# Rep. Fish Faces Tough Fight Today

Pre-War Isolationist Denounced By Dewey And Willkie May Not Be Re-Elected

NEW YORK, Aug. 1.—(INS)—Two bitter congressional nomination battles highlighted New York's primary elections today and interest centered in Newburgh where pre-war isolationist Rep. Hamilton Fish is seeking reelection and in the contest of left-wing Rep. Vito Marcantonio in New York City.

Fish, denounced by Democrats and two top leaders of his own party, Gov. Thomas E. Dewey, and ex-presidential nominee Wendell Willkie, for injecting religious and racial issues in the fight, is opposed by Augustus W. Bennett, Newburgh lawyer.

Fish, facing the hardest fight in his 24 years as a congressman, predicted he would win by a 2-1 count and is "sure I will receive at least 14,000 of the expected 21,000 votes to be cast in my four counties."

Rep. Marcantonio, unopposed on the American Labor party ticket, is seeking to capture both the Republican and Democratic nominations as well as that of his own party.

These have been taken to the Y. W. C. A. building on the Diamond and those who left the articles are asked to claim their possessions at the Y. W. office.

# JAPS IN BURMA BEING DESTROYED

NEW DELHI, Aug. 1.—(INS)—Five Japanese divisions, or more than half of their garrison in Burma, have been totally defeated and largely destroyed in the Allied offensive on the whole Burma front in the last three months, it was announced today.

Japanese casualties were 50,840 killed and wounded, excluding their losses by bombing, shellfire, fever and starvation.

# Storm Warnings Ordered Posted

MIAMI, Fla., Aug. 1.—(INS)—Storm warnings were ordered up today from Brunswick, Ga. to Cape Hatteras, N. C., by the U. S. weather bureau as a tropical storm of moderate intensity moved towards the Georgia and Carolina coasts.

The disturbance, moving northwest or north northwest about 15 miles per hour, was centered approximately 200 miles east of Daytona Beach, Fla. Highest winds probably approach 55 miles per hour.

# POLICE OFFICERS HAVE BATTLE MAKING ARREST

Two Of Officers Injured In Mixup With Prisoner On South Side

Police, headed by Lieut. Jones, ran into a Tarzici (Domenick) and not a Tarzan, last night, but before the police had Mr. Tarzici safely ensconced behind iron bars he exhibited all the wrath of a vexed Tarzan. In fact two of four officers were hurt.

Officer Price, dislocation of bone in right hand.

Officer Shaffer, injury to right wrist.

Lieutenant Jones' trousers badly torn.

Officer Cobellis was not a casualty.

## Mel Ott Hurt As Giants Win

Giants Hard Hitting Manager May Be Out For Balance Of Season

### PIRATES DEFEAT BOSTON BRAVES

By PAT ROBINSON  
(International News Service Sports Writer)

NEW YORK, Aug. 1.—The Giants' chances of finishing at least in the first division were considerably enhanced today after the Giants' lost their great little skipper, Mel Ott, last night, perhaps for the balance of the season.

The Giants slugged out a 9 to 7 decision over the Reds but it was a costly victory. Ott turned his ankle when he tripped over first base while running out a grounder and was removed to a hospital with a possible fracture.

### Whip Phils

Meanwhile the Cubs, who have been trading on the heels of the Giants, knocked over the Phils, 5 to 1, for their seventh straight victory and their 24th in their last 30 games. That's a pennant-winning pace but it seems too late to bother the Cardinals.

The confident Cards got another shock when the Dodgers topped them, 6 to 1, as Hal Gregg turned in his first victory since May 30.

### Pirate Top Braves

Fritz Ostermiller, whom Branch Rickey, the big brain of the Dodgers, let go—pitched another great game for the Pirates. This time he beat the Braves to two hits and the Pirates had no trouble winning, 9 to 2.

The Yanks and Tigers were idle in the other league but the rest of the teams collaborated in three exciting games. The Red Sox trimmed the Indians, 1-0, in the ninth in one of the finest pitching duels of the season. Mike Ryba, who is 40 years old, got the nod over Steve Gromek, who is only 24.

The Browns came from behind to knock out the Senators, 3 to 2.

The A's won up the night by getting a 3-2 verdict over the White Sox in 10 frames.

## Directors, Trustees Committees To Meet

Andrew Dodds, president of the Lawrence County Sportsmen's association today announced there would be a meeting of the board of directors, trustees and appointed committees at the club's main, Harbor Road at seven o'clock Wednesday night.

## Baseball Managers To Hold Meeting

Managers of City Baseball league teams were requested today to meet at nine o'clock tonight in the Y.

The meeting was called by Manager Johnny Soho of the Shenango Pottery.

The meeting, he stated, is for only managers and not officials of the circuit.

There are first half matters hanging over and others that have become more recently before the managers that demand prompt action he declared and believes the board of managers can settle them when they get together tonight.

## Los Angeles Gets Negro Grid Star Pick Minneapolis For Legion Finals

LOS ANGELES, Aug. 1.—(INS)—Drafting of players in the newly formed Pacific Coast Professional Football league was completed today with the highly-touted Kenney Washington, former great Negro back from UCLA, going to the Los Angeles Mustangs.

The distribution of 146 players was regulated by Jerry Giesler, president of the new league. Fifty players went to the Hollywood Rangers, while the Los Angeles Wildcats and Mustangs drew 48 apiece.

## Fair Or Foul

By LAWTON CARVER

(International News Service Sports Editor)

NEW YORK, Aug. 1.—Turkey Thompson and Lee Q. Murray should be permanently barred from New York rings by the boxing commission to prevent an encore of their miserable prizefight of last Friday night and to warn other fighters what will happen to them if they fail to give the customers a run for their money.

There was a time when one prizefight out of every two was a terrible thing that left the customers howling in disgust over a fake foul, a slow, uninteresting fight or a bad decision. Sometimes they managed to get a touch of all three of these elements into one bout. No one had any confidence in boxing and boxing had few steadfast fans. Joe Louis did more to bring the game to its present state of prosperity than any other fighter of recent times. Promoter Mike Jacobs has helped toward that end by putting on good, honest shows.

Should Be Law

There is no reason for permitting a couple of out-and-out bums like Thompson and Murray to come along and louse up the thing so thoroughly that boxing will be back where it was before Louis hailed it up to its present position.

After stating one of the worse fights in the history of Madison

Square Garden, Thompson had the effrontery to suggest that he and Murray be put back in a return match. I think that would be all right but only with the proviso that Promoter Jacobs let the customers all in free on the long chance that those who were robbed Friday night might somehow get a run for their money. Thompson and Murray should have been thrown out of the ring and their purses confiscated.

Or better still, now that they have been paid off, they should be run out of the state to prevent a repetition of this terrible fiasco.

If the commission sits back and lets these things continue—and this is the second straight such fight in New York—it will be only a matter of time until some of the citizens will be howling again for the death of boxing. It might be all right too to kill it and get it over with, except that for the last couple of years there has appeared to be no real reason for depriving boxing fans of their favorite sport. Generally speaking, the game has been clean and interesting.

Crowd Was Small

But if Jacobs reaches out to Los Angeles for another like this Turkey Thompson and goes to Newark, Conn., to dig up another terrible caricature like this Murray it will be another move toward halting one of sport's biggest gold rushes. Boxing had enjoyed a tremendous boom until now. Perhaps the Madison Square Garden clientele suspected the worst on this occasion. In any case, the smallest crowd in years—a few over 5,000—witnessed the waltz.

Murray got the decision, but it is inconceivable that any official actually could pick one fighter or the other, they were that bad. Murray insisted that he had hurt his hand in an early round but he did some of his best punching with the alleged injured member in late rounds. The story is that Murray's hand had been sore for some time and whenever he gets in a fight and whacks an opponent the hand immediately goes bad.

If this be so it is another reason for keeping Murray out of the ring for awhile. Not that any additional reasons are needed. All any one needs to do in that connection is to remember his fight with Turkey Thompson on last Friday night. That's reason enough to keep both of these Negroes out of the ring for life.

# NEW CASTLE NEWS SPORTS

## HERE AND THERE IN SPORTS LAND

Sports editors usually have, in addition to their regular duties, the heavy burden of placating or hearing out the various crackpots liable to wander into sports offices to un-bosom themselves of lunatic schemes or complaints. This extra job is often tiresome and sometimes funny reports Mike Cashman of the I. N. S. Not exactly in the crackpot class is "Foulproof" Taylor who demonstrates the usefulness of protective accoutrements in sports in a very unusual manner. Foulproof dons a helmet, claps it close to his skull in the manner of a football player about to plunge headlong into the fray, picks up a baseball bat and, extending it to the sports editor cries, "Here, hit me on the head."

The scene is somewhat ludicrous.

The editor, if a novice at Foulproof's little game, usually starts off with a feathery tap which would do no harm to the foolproof salesman even if he were not equipped with a helmet. Usually, however, the batsman winds up slugging Foulproof with heavy swings. In New York offices, where Foulproof is well-known, there are sports writers who get in their annual battling practice on Foulproof's noggin with such effect the poor doctored reporter is left of the office befogged.

Foulproof also decks himself out in gadgets designed to protect other parts of his anatomy. But he ceased this practice in one New York office when one writer slugged him with a bat from behind and another kicked him, both operations being performed simultaneously and with vigor.

A few hours before the opening of the World Series between the Cincinnati Reds and Chicago White Sox in 1919, a rather nervous chap walked into a Chicago sports office and claimed he knew that the White Sox were going to throw the series to the Reds. The informant offered to tell his story for \$5,000 and back it up with documented proof. The sports editor approached on the matter listened carefully but decided it was merely the squawk of another misguided crackpot.

A week later, the White Sox, although heavy favorites, had lost the Series to the Reds and less than a year later eight White Sox players were on trial in Cook County, Ill., on charges of throwing the Series for money which, incidentally, they never received.

During the years, it has been noticed, the stream of crackpots and dreamers has thinned out and now is almost non-existent. Perhaps most of the gentlemen are in uniform. If so, God help the enemy!

## Golfing Greats At Beverly Hills

BEVERLY HILLS, Cal., Aug. 1.—(INS)—Golfdom's greats were on hand today preparing for one of the summer's national golf classics, the \$5000 Beverly Hills open golf championship which starts Friday at the Rolling Hills Country club.

Thirty-six hand picked professionals and 72 invited amateurs tee off tomorrow in the introductory event the 18-hole \$500 pro-amateur tournament.

Foremost among the divot diggers are those two fairway kings of the present decade—Harold "Jug" McSpaden and Byron Nelson. In addition to McSpaden, leading tournament money winner of 1944 and king of the \$12,500 Los Angeles open last winter, the pro-amateur event tomorrow has drawn two internationalists, several stars from northern California, and representatives of many mid-west and Rocky Mountain states.

## American Legion Junior Schedule

Here is the schedule this week of American Legion junior baseball teams:

Tuesday—Dean Park Dodgers vs. Cozy Corners at Washington field.

North Hill Cards vs. Wolverines at Gaston park and Fannins vs. Cubs at Lehigh field.

Thursday—Cubs vs. Wolverines at Gaston park, Cozy Corners vs. North Hill Cardinals at Washington field and Fannins vs. Dean Park Dodgers at Dean park.

George Stirnweiss, the former speedster of the North Carolina backfield, is cutting capers in the American league this season, giving George Case a run for his money as the champion base-stealer of the loop. Stirnweiss, who pilfered 73 sacks while with Newark in 1942, has grabbed off 28 bases in 31 attempts this year. He is tied with Case for league leadership. (International)

Revolver Club Shoots Tonight

Sportsman's Revolver club will meet tonight at the Cathedral range. Basic firearms school will begin at eight o'clock. Students who have not completed the course are requested to be present because a new class is being formed. There are openings for persons over 16 years of age. The scores from last week follows: C. Schveinsberg 289, William McKee 267, J. Allen 250, G. Bolinger 228 and C. Brunton 226.

PETERSON WITH BRONZE

Among the new players signed in the City Baseball league is Sil Peterson, who has been hurling for the East Side Civics. His contract was sent to league headquarters yesterday. Billy Boles is another Bronze addition.

## Tobacco Users Are Affected By Wartime 'Squeeze'

Acute Lack Of Fibre Board For  
Shipping Material Is Reported  
In United States

By ERWIN D. SIAS  
(U. S. Staff Correspondent)

WASHINGTON, Aug. 1.—American tobacco users found themselves in the middle of a wartime "squeeze" today confronted with growing shortages of favorite cigarette brands and less if any, medium-priced cigars on retail counters. Government officials explaining there is no great tobacco shortage blamed the cigarette drought on "an acute lack of fibre board for shipping material."

And while cigar smokers seem about to be faced with "rolling their own" stories from cabbage leaves, industry men point to their idle machinery gathering dust from lack of labor.

About the only bright spot is the envied position of the "quid" boys who chew the old tobacco plug.

"Chewing is up," a war food administration spokesman stated. Many heavy industries, from on employers smoking on the job but a end of tobacco or a pinch of snuff is strictly on the up and up. As far as anybody knows, there's plenty of "snuff" around.

Uncle Sam, in assuring plenty of shipping material for his armed forces, has placed cigarette companies under quotas for fibre board cartons. Some manufacturers are paying more to get back their old cartons than the new ones cost one government official explained.

In other words, it's "no cartons, no cigarette shipments to distributors."

"The manpower situation in the industry is so tight it is almost impossible for the leading cigar manufacturers to produce at anything like capacity," an industry spokesman said.

"More than 50,000,000 cigars per month are being shipped overseas by the military and 32,000,000 per month additional are being 'prioritized' for domestic military installations."

Most of these purchases, he said, are in the lower priced brackets, and the result has been that only about 60 per cent of the pre-war supply is available to civilian distributors.

## Salvage Work Is Awarded By State

New Castle News Among Papers  
Cited For "Outstanding  
Service"

HARRISBURG, Aug. 1.—(INS)—The state defense council's salvage committee announced today that 51 Pennsylvania newspapers, one radio station and eight county councils have been cited for "outstanding service" during the recent waste paper drive.

Warren R. Roberts, chairman said that 19 papers received awards in May and that the committee plans to continue the awards. WFBG at Altoona was the first broadcasting station to be cited. Awards will be mailed to the chairman of county salvage committees and will be presented at local ceremonies, the council stated. County councils which will receive citations were: Blair, Cameron, Centre, Delaware, Erie, Huntingdon, Lycoming and Potter.
